2023年3月四级真题第3套

听力原文 / Transcripts

新闻听力原文 / News Report（英文）

College English Test, Band 4, Part 2, Listening Comprehension, Section A, Directions.
In this section, you will hear three news reports. At the end of each news report, you will hear two or three questions.
Both the news report and the questions will be spoken only once. After you hear a question, you must choose the best answer from the four choices,
marked A, B, C, and D. Then mark the corresponding letter on answer sheet 1 with a single line through the center.
Use report 1. African leaders planned to turn the continent into a continent without borders.
They will introduce a single passport policy allowing free movement between countries.
The idea from the African Union has been modeled on the EU-Shengen Free Movement Deal.
Europe has abolished many internal borders. This enables visa-free movement across the continent.
Currently, 13 African countries have visa-free deals in place with each other.
These allow citizens to visit another country without a visa.
Some countries offer visas on arrival.
In contrast, Americans are able to travel to 20 of the continent's countries without a visa,
or secure a visa on arrival.
The African Union, which represents 54 states, wants to abolish the requirement of a visa
for Africans visiting other African countries.
It also wants to establish a free trade deal across the continent in the near future.
As trade within the African continent, cost more than any other region.
Questions 1 and 2 are based on the news report you have just heard?
Question 1. What is the news report mainly about?
Question 2. What benefit will a free trade deal bring to African economy?
News Report 2.
Researchers in Iceland found a new way of tackling climate change by pumping carbon dioxide
underground and turning it into stone.
Other carbon capture and storage methods store carbon dioxide as a gas, but problems include
a high cost and concern about leaks.
This new method of barring carbon dioxide and turning it into stone is cheaper and more secure the
Guardian reports.
To turn carbon dioxide into stone, researchers with the Carb-Fix project pumped the gas into volcanic rock
and sped up the natural process in which the volcanic rock reacts with gas and forms carbon minerals.
The gas turned into solid in just two years.
Much faster than the hundreds or thousands of years researchers had predicted.
The research took place at Iceland's Hela Shidi power plant.
Already, the project in Iceland has been increased in scale to bury 10,000 tons of carbon dioxide
each year.
One potential difficulty is that for each ton of carbon dioxide buried, the technique
requires 25 tons of water.
However, the lead researcher said sea water could be used.
Questions 3 and 4 are based on the news report you have just heard.
Question 3.
What new method has been developed to help fight climate change?
Question 4. What is a potential difficulty in applying the new technique?
News report 3 People in France are keeping away from the narrow French stick-loaf in favor
of healthier cheaper options and Miller's Association has said.
The National Association of French Millers says bread consumption is on the decline.
With French people eating 9 grams less than in the previous year.
The association is concerned about the effects this trend will have on their trade, and
suggests three reasons why it is happening.
Firstly, the association cited changing diets.
In particular, this switched to those low in calories.
as a factor in the reduction of bread consumption.
This could explain why the difference in consumption between genders is so big.
Nowadays, men eat an approximate average of 140 grams of bread daily,
whereas women eat 80 to 90 grams.
The second reason they say is lifestyle changes in the country.
With people dedicating less time to breakfast, when bread would traditionally be eaten with butter and jam.
Finally, the rising cost of bread is considered to be a factor.
With the price of a French stick loaf, increasing by nearly 25% in the last 10 years.
Questions 5-7 are based on the news report you have just heard?
Question 5. What does the news report say about French people's bread consumption?
Question 6. What do we learn about French women from the report?
Question 7 What is said about lifestyle changes of the French people?

长对话听力原文 / Conversations（英文）

Section B, directions. In this section, you will hear two long conversations. At the end of each conversation, you will hear four questions. Both the conversation and the questions will be spoken only once.
After you hear a question, you must choose the best answer from the four choices marked A, B, C, and D.
Then mark the corresponding letter on answer sheet 1 with the single line through the center.
Conversation 1. Next, please. Yes, I'd like to book two train tickets to London
tomorrow morning, please. Okay, what time would you like to go? Well, after the
rush hour I think, we'd like to avoid the crowds if possible. So probably some time
around 10 o'clock. No problem, just give me a minute. There's one here at 947, then
at 10-12 and then a third at 10-26.
The one at 12 minutes past 10 sounds good.
Alright.
Would you like to sit in first or second class?
Second class is fine.
Thanks.
Is there any chance we could have a window seat for one of those?
No problem.
And I've booked those seats next to each other for you.
The total price is 36 pounds, 50 cents.
Is there anything else?
Yes, actually, we'll be taking our bicycles with us.
What is the arrangement for that?
And will it cost extra?
It's no extra cost.
The price will be the same.
All you need to do is wait at the far end of the platform.
When the train arrives, tell the train guard where you're going, and he will help you secure
the bicycles in the last carriage and give you a ticket.
Then you can walk down through the train to your carriage and take your seats.
When you arrive in London, hand the ticket to the guard and he will return the bicycle
to you.
Thank you for the information.
That's very helpful.
Questions 8-11 are based on the conversation you have just heard.
Question 8.
When would the man like to leave for London?
Question 9. What is the man's other request?
Question 10. Where should the man wait for the train?
Question 11. What should the man do to collect the bicycles?
Conversation 2
Good morning. Our guest today is Karen Brooke. Karen is the managing director of
Cube Movie Theater located on Underhill Road. Thank you for coming Karen.
Thank you for having me. So tell us about your cinema. Cube Movie Theater.
Sure. Cube Movie Theater has been around now for 11 years. It's located in what used to be a
Yeah, there used to be many hat factories in Britain and tell around the 1950s, but fashion
changed and most people stopped wearing hats. So practically all of those factories had to
close down. This one in particular was closed for 47 years before we transformed it into a movie theater.
I see. I hear there's something else that makes your theater special. What is it that sets you apart
from other theaters. We are the only movie theater in the whole country that only shows foreign
movies. Is there enough demand for that? I would have thought that in London most people don't
speak foreign languages. Sure, there's enough demand. The fact that we have been open and in business
for all these years proves it. London is a very large and international city. There are lots of
people interested in watching such movies. Furthermore, I might add, all movies come with English
text at the bottom of the screen. So even if you don't understand what the actors say, you
can still read it. Of course. What movie are you showing right now? This week we're showing
a musical from Pakistan. It's very popular.
Questions 12 to 15 are based on the conversation you have just heard. Question 12. What do we
learn about half factories in Britain.
Question 13.
What is special about Cube Movie Theater?
Question 14.
What does the man say about most people in London?
Question 15.
What does the woman say about foreign movies shown in London?

听力篇章原文 / Passages（英文）

Section C, directions. In this section, you will hear three passages. At the end of each passage, you will hear three or four questions. Both the passage and the questions will be spoken only once.
After you hear a question, you must choose the best answer from the four choices marked A, B, C, and D.
Then mark the corresponding letter on answer sheet 1 with the single line through the center.
Passage 1
Love them or hate them, smart phones have become an integral part of our daily lives.
But should they be left outside the classroom?
Nick Gibb, Minister for School Standards in England, believes schools should ban their pupils from bringing
in smart phones.
Astrid Natalie, a secondary school math teacher, incorporates phones into her classroom.
My school doesn't have money for tablets, so says. When students use their phones for
research, they learn they have a powerful tool in their hands. If we stop children using
phones, we're rejecting something they can use about. Meanwhile, Helen Lockhart, a registered
nurse working for community education, supports a complete ban.
I'm banned from mobile use at work, and my phone must be handed in.
If I'm caught with it in my pocket, I will be subject to disciplinary procedure, which
will impact on my career.
We need to teach children how to behave like the professionals they're striving to become.
Richard Stone and English teacher thinks there should be a clear separation between school
and home.
Students should do things differently in the two environments.
Children are getting more than enough screen time in their lives without the need to bring
their phone into the classroom.
The internet is too easy and too unreliable or research tool, so let's leave phones and
laptops at home and show them a different world in their lessons.
One of books and pens, he says.
Question 16-18 are based on the passage you have just heard.
Question 16. What do we learn about Astrid Natalie, a secondary school math teacher?
Question 17. Why does Helen Lockhart, a registered nurse, support a complete ban on smart phone use in the
classroom
Question 18. What should students do in the classroom
according to Richard Stone and English teacher?
Passage 2. Kate, a six-year-old girl, helped her brother Wash Windows to get a reward
promised by her mother. A purple doll that she wanted. She watched her mother order the
doll online. The next day, Kate asked if she could check the shipping status, so her mom
clicked on the webpage, and then walked out of the room. Kate saw that her doll would
be arriving the next afternoon, but then she noticed something else. Suggestions about other
dolls and toys she could order. 15 minutes and a few clicks later, with more than $350 worth
of dolls in her cart, Kate placed the order, and ran off to play. The next day, while
dolls on the way.
She was able to cancel two of them, but it was too late to cancel the rest.
She told her daughter that they were going to be returned.
When the packages arrived, Kate wanted to open them, but her parents said no.
Instead of sending back the dolls, her father suggested giving them to the local children's
hospital.
So the next week, Kate's family loaded up their car and took all the dolls to the playroom
at the children's hospital.
Kate was depressed at first, but then she sat with some girl patients and they opened
up all the boxes together, laughing and playing. She had a lot of fun and learned a really
good lesson.
Questions 19-21 are based on the passage you have just heard. Question 19, how did Kate
earn the reward from her mother?
Question 20. What did Kate do after her mother left the room?
Question 21. What did Kate's family do after the packages arrived?
Passage 3.
Can the date you were born affect how successful your life is?
According to recent research done in Australia, the answer is yes.
The researchers found that the time when a person starts school has an enduring impact
on their lives.
Those who are relatively old compared to their classmates have certain advantages over them.
Previous research has found older students achieve better results.
They are also more likely to attend university and become professional athletes, chief executives,
and even important politicians.
But the Australian researchers wanted to discover what was driving these differences.
They suspected older, more mature students obtained more self-confidence than their peers,
because they achieved better grades.
To test this out, they conducted two studies.
One was with high school students and the other with more than 1,000 Australian adults.
Age between 24 and 60 years old.
In the first study, more than 600 high school students were surveyed about their tendency
to take risks and feel confident.
In the second study, those born on both sides of the cut-off date for starting school
were asked to complete online math questions and rate their performance.
They were also asked about the risks they took while writing bicycles and managing their
finances.
The researchers found that older students displayed greater risk-taking tendencies, while
risk-taking can be considered a negative attribute.
It's also a characteristic of successful people, including athletes, political leaders,
and entrepreneurs.
Questions 22-25 are based on the passage you have just heard.
Question 22.
According to recent research conducted in Australia, what has a lasting impact on one's life?
Question 23. What was the purpose of the Australian research?
Question 24. Who were the participants and the researchers first study?
Question 25. According to the researchers, what is one characteristic of successful people?
That's the end of listening comprehension.
