2022年12月四级真题第2套

原卷 / Question Paper · 年份 2022 | 月份 12 | 第 二 套 | 时长 125 分钟 | 满分 710（及格 425）

Part I 写作 (Writing)

Directions: In this task,you are to write an essay on the importance of developing a healthy lifestyle among college students.You will have 30 minutes for the task.You should write at least 120 words but no more than 180words.

建议时间：30 分钟 | 字数：120-180 | 分值：15

作答区

Part II 听力理解 (Listening Comprehension)

Section A news

短新闻

听力音频：audio/SectionA.mp3（见离线包 papers 目录对应 audio 文件夹）

1. **What event will take place in Glasgow?**

A. A free car show.
B. A yearly concert.
C. A sports competition.
D. A pipe band contest.

2. **What does Glasgow City Council say the event will do?**

A. Improve the image of Glasgow city.
B. Enrich the local culture of Glasgow.
C. Contribute a lot to the local economy.
D. Entertain people in local communities.

3. **What is scientists warning in the news report?**

A. Surprising rise in global sea levels.
B. Dangerous ice melts in Greenland.
C. Changing weather patterns in summer.
D. Record growth of Greenland's ice sheets.

4. **What do we learn about this year's ice melting season in Greenland?**

A. It began in late May.
B. It lasted three months.
C. It started a month earlier than usual.
D. It ended a month earlier than before.

5. **What happened on the streets of Black Hall, Coloring?**

A. Bundles of £20 notes kept turning up.
B. A villager was searching for his lost cash.
C. Local policemen came across bundles of £20 notes.
D. A bundle containing thousands of pounds got stolen.

6. **What do the local police do with the money if not claimed in two weeks?**

A. They give it to charity.
B. They return it to the finder.
C. They hand it over to the local government.
D. They place a notice in The Northern Echo.

7. **What did the police man John Forster say about the villagers?**

A. They cooperated well with the police.
B. They enjoyed a fairly affluent life.
C. They were puzzled by the mystery.
D. They had a strong community spirit.

Section B conversations

长对话

听力音频：audio/SectionB.mp3（见离线包 papers 目录对应 audio 文件夹）

1. **How does the man often feel on his birthday?**

A. Excited.
B. Delighted.
C. Indifferent.
D. Strange

2. **What does the woman say many people tend to do on their birthday?**

A. Search for the meaning of their life.
B. Look back on their years at school.
C. Call on their relatives and friends.
D. Talk about future plans with friends.

3. **What does the man say about receiving gifts and having a fuss made on his birthday?**

A. He prefers to have them shown on social media.
B. He loves them but does not want to make a fuss.
C. He enjoys celebrating others'birthdays rather than his own.
D. He looks forward to receiving presents from his close friends.

4. **What does the woman suggest the man do about his birthday celebration at the end of the conversation?**

A. Hold it on a modest scale to remove birthday anxieties.
B. View it as a chance for people to socialize and have fun.
C. Extend invitation to those he trusts most.
D. Make it an occasion to collect donations.

5. **What does the woman say about her subway ride?**

A. It was absolutely exhausting.
B. There was a terrible smell.
C. There was too long a delay.
D. She got off at the wrong station.

6. **Why hasn't the woman got her own car?**

A. She hasn't saved enough money.
B. She is worried about traffic jams.
C. She hasn't passed the driving test yet.
D. She is used to taking public transport.

7. **What does the woman say about electric motorbikes?**

A. They are popular.
B. They are dangerous.
C. They are a bit expensive for her.
D. They are environmentally friendly.

8. **How was the woman going to get to work?**

A. By bus
B. By jogging
C. By renting a bike
D. By sharing a ride.

Section C passages

听力篇章

听力音频：audio/SectionC.mp3（见离线包 papers 目录对应 audio 文件夹）

1. **What do we learn about Steve Miller?**

A. He is a sign language interpreter.
B. He is a deaf person working in IT.
C. He doesn't like speaking at meetings.
D. He doesn't use email or text messages.

2. **What does Miller say is making things better for people like him?**

A. Improved communication skills.
B. Speech recognition technology.
C. Big advances in sign language.
D. Transformation in the IT industry.

3. **In what way can Miller benefit from attending meetings via video?**

A. He can avoid being mistaken.
B. He can take notes on the spot.
C. He can understand with ease.
D. He can see the speakers'images.

4. **What do people want upon returning home according to the passage?**

A. To find pure white walls shining.
B. To enter a house well looked after.
C. To get a hug from family members.
D. To see cheerful colours all around.

5. **What does the passage say people should avoid doing in home decoration?**

A. Choosing a colour because it is fashionable.
B. Painting the interior of their cupboards.
C. Doing the painting job all by themselves.
D. Designing all window frames the same way.

6. **What can one of the people do to make a room look bigger.**

A. Fit most of the cupboards into walls.
B. Hang landscape paintings all around.
C. Match the room's ceiling with all the furniture in colour.
D. Paint the wooden frameworks and walls the same colour.

7. **What does the passage say parents increasingly understand?**

A. Children must read at least 3 times a week.
B. Reading is a habit every child can develop.
C. Reading to their children is important.
D. Children should start reading at age 3.

8. **What can predict children's reading skills according to recent research?**

A. The number of books they have read by age four.
B. The speed of their brain development in infancy.
C. The number and quality of books parents read to them in infancy.
D. The quality and quantity of time parents spend playing with them.

9. **What kind of books are said to help babies learn more?**

A. Books with specifically labeled images.
B. Books with pictures of dolls and toys.
C. Books describing the lives of animals.
D. Books telling very interesting stories.

10. **What are parents advised to do at the end of the passage?**

A. Read as many books as possible to their children.
B. Choose carefully what to read to their children.
C. Share experience with other parents.
D. Create picture books for their children.

Part III 阅读理解 (Reading Comprehension)

Section A 选词填空

Word Bank（词库）

A) additional
B) associated
C) composing
D) cultivate
E) depressive
F) directly
G) emotions
H) however
I) implications
J) interfered
K) involving
L) note
M) superficial
N) precisely
O) therefore

Parenting brings fathers more joy than it does mothers,according to a new study.The research examined three studies __26__ more than 18,000 participants.Across all three, parenthood was _27__ with more positive wellbeing outcomes for dads than for mums.

So why are fathers happier than mothers?"Fathers may fare better than mothers in part due to how they spend time with their children,"said lead author Katherine Nelson-Coffey. In one study,the authors __28__ that dads were more likely to take “playing” as an __29__ activity both when caring for their kids and spending time with their kids. “Playing with their children likely offers parents opportunities to experience positive feelings and __30__ closeness with their children,"they say.

Fathers also did better than men without kids,reporting greater happiness,life satisfaction,and fewer __31__ symptoms.They also reported greater connectedness and autonomy(自主).For mums, __32__,compared to women without children,the results weren't quite as positive.Mums reported greater autonomy,but also “greater trouble"and fewer positive __33__

Mums reported happier moods while interacting with their kids,compared to other experiences,but not while engaging __34__ in childcare. “This difference suggests that how mothers and fathers spend time with their children might have important __35__ for their wellbeing,"the authors write.They suspect that mums may be less happy than dads because they're more likely to have higher expectations about parenthood.As such,they're more likely to be"let down"by the experience.

空格题号：26、27、28、29、30、31、32、33、34、35

Section B 段落匹配

Directions: 阅读下列段落，为每个句子选出所对应的段落。每个段落可能被选一次、多次或不被选择。

A Not doing something will always be faster than doing it.This philosophy applies in many areas of life.For example,there is no meeting that goes faster than not having a meeting at all.This is not to say you should never attend another meeting,but the truth is that we say “yes” to too many things we don't actually want to do.

B How often do people ask you to do something and you just reply,"Sure."Three days later,you're overwhelmed by how much is on your to-do list.We become frustrated by our obligations even though we were the ones who said"yes"to them in the first place. Even worse,people will occasionally fight to do things that waste time.You don't have to do something just because it exists.It's worth asking if things are necessary.Many of them are not,and a simple 'no will be more productive than whatever work the most efficient person can cope with.But if the benefits of saying “ no” are so obvious,then why do we say ” yes” so often ?

C We say “yes “to many requests not because we want to do them,but because we don 't want to be seen as rude or unhelpful.Often,we have to consider saying “no” to someone we will interact with again in the future—our co-worker,our spouse,our family and friends.Saying “no” to our superiors at work can be particularly difficult.In these situations,I like the approach recommended in Essentialism by Greg McKeown. He writes, “Remind your superiors what you would be neglecting if you said yes 'and force them to deal with the trade-off.For example,if your manager comes to you and asks you to do X,you can respond with ‘Yes,I'm happy to make this the priority.Which of these other projects should I deprioritize to pay attention to this new project ?

D Collaborating with others is an important element of life.The thought of straining the relationship outweighs the commitment of our time and energy.For this reason,it can be helpful to be gracious in your response.Do whatever favors you can,and be warm-hearted and direct when you have to say no.But even after we have accounted for these social considerations,many of us still seem to do a poor job of managing the trade-off between yes and no.We find ourselves over-committed to things that don't meaningfully improve or support those around us,and certainly don't improve our own lives.

E Perhaps one issue is how we think about the meaning of yes and no.The words "yes" and “no” get so often used in comparison with each other that it feels like they carry equal weight in conversation.In reality,they're not just opposite in meaning,but of entirely different magnitudes in commitment.When you say “no” ,you're only saying “no” to one option.When you say “yes” ,you're saying “no” to every other option.I like how economist Tim Harford put it,Every time we say 'yes'to a request,we 're also saying'no 'to anything else we might accomplish with the time.Once you're committed to something,you 've already decided how that future block of time will be spent.In other words,saying “no” saves you time in the future.Saying “yes” costs you time in the future. “No” is a form of time credit.You retain the ability to spend your future time however you want. “Yes” is a form of time debt.You have to pay back your commitment at some point.

F “No” is a decision. “Yes” is a responsibility.Saying “no” is sometimes seen as a luxury that only those in power can afford.And it's true:turning down opportunities is easier when you can fall back on the safety net provided by power,money,and authority.But it's also true that saying “no” is not merely a privilege reserved for the successful.It's also a strategy that can help you become successful.Saying “no” is an important skill to develop at any stage of your career because it retains the most important asset in life: your time.As investor Pedro Sorrentino put it, “If you don't guard your time,people will steal it from you.You need to say “no” to whatever isn't leading you toward your goals.

G Nobody embodied this idea better than Steve Jobs,who said, “People think focus means saying 'yes'to the thing you've got to focus on.But that's not what it means at all.It means saying'no’ to the hundred other good ideas that there are.You have to pick carefully.” Jobs had another great quote about saying “no” : “I'm actually as proud of the things we haven't done as the things I have done.Innovation is saying 'no'to 1,000 things.

H Over time,as you continue to improve and succeed,your strategy needs to change.The opportunity cost of your time increases as you become more successful.At first,you just eliminate the obvious distractions and explore the rest.As your skills improve and you learn to separate what works from what doesn't,you have to continually increase your threshold for saying “yes” .You still need to say “no” to distractions,but you also need to learn to say “no” to opportunities that were previously good uses of time,so you can make space for better uses of time.It's a good problem to have,but it can be a tough skill to master.

I What is true about health is also true about productivity:an ounce of prevention is worth a pound of cure.More effort is wasted doing things that don't matter than is wasted doing things inefficiently.And if that is the case,elimination is a more useful skill than optimization.I'm reminded of the famous Peter Drucker quote, “There is nothing so useless as doing efficiently that which should not be done at all.

待匹配句子

36. People often grant a request just because they want to appear polite and helpful.
37. It's no easy job learning to say “no” to opportunities that were once considered worth grasping.
38. When you decline a request,you are saving your future time.
39. People sometimes struggle to do things that are simply a waste of time.
40. Doing efficiently what is not worth doing is the most useless effort.
41. It is especially difficult for people to decline to do what their superiors ask them to do.
42. People agree to do too many things they are in fact unwilling to do.
43. According to one famous entrepreneur,innovation means refusal to do an enormous number of things
44. It is an essential aspect of life to cooperate with other people.
45. Refusing a request is sometimes seen as a privilege not enjoyed by ordinary people.

Section C 阅读理解

Passage One

We're eating more fish than ever these days.At around 20 kilograms per person global fish consumption is now more than twice what it was in the 1960s.What's really remarkable,though,is where that fish comes from.

For the first time in human history,most of our aquatic(水产的)food now comes from farming rather than fishing.

People ate around 73 million tonnes of farmed fish—just more than half of the volume of fish that humans consumed—in 2014.That's out of a total fish supply of 167 million tonnes;the remaining 20 million or so tonnes go into things like animal feed and medical products

To keep eating fish at the current rate,were definitely going to need to keep aquaculture (水产养殖)developing.That's because the volume offish caught in the wild

has leveled off since the 1990s.

Back in 1974,only 10%of marine fish stocks had been overfished.Now,more than three-tenths are.Only a tenth of our oceans'fish stocks could sustain heavier fishing than current levels.

But while catchings at sea have suffered,fish-farming has been growing at a fast rate. A lot of that is coming from China,which produces 60%of the world's farmed fish.In fact,some 35 countries,including China,now produce more farmed than wild-caught fish.

This shift toward aquaculture isn't just good for ensuring salmon(三文鱼)on your plate;it's also crucial to ensuring food security and sustainability.By 2050,the world will need to feed an estimated 9.7 billion people.They'll have to get their protein somewhere. However,raising cattle,pigs,and other land-based animals requires vast sums of grain and water.For example,pound for pound,beef requires 15 times more feed to raise than carp,a freshwater fish farmed all over Asia.That grain-and the water needed to grow it-could be consumed by people instead.

However,aquaculture is no silver bullet.In some southeast Asian countries,shrimp farming does disastrous damage to marine ecosystems.Despite these problems,however,shrimp continues to be among the most popular sea foods worldwide.

1. **What does the author say is remarkable about the fish we eat?**

A. They reproduce quickly.
B. They are mostly farmed.
C. They have become as important as grain.
D. They have a longer history than humans.

2. **What do we need to do if we keep consuming fish at the current rate?**

A. Increase the fishing volume considerably.
B. Develop more advanced fishing technology.
C. Enlarge the marine fish stocks effectively.
D. Expand the scale offish-farming continuously.

3. **What does the author say about China in terms of aquatic food?**

A. It places increasing emphasis on fishing now.
B. It boasts of the world's largest fishing stocks.
C. It raises more fish than caught from the wild.
D. It supplies 60%of the world's fish products.

4. **Why does the author say aquaculture is so important these days?**

A. It is a must for feeding the world's fast-growing population.
B. It proves a reliable source of protein for humans and animals.
C. It is essential to maintaining both mental and physical health.
D. It ensures a balanced healthy diet for people the world over.

5. **What does the author imply by saying aquaculture is no silver bullet?**

A. Shrimp-farming is a risky business.
B. Fish-farming will not be sustainable.
C. Fish-farming may cause serious problems too.
D. Shrimp-farming can become quite expensive.

Passage Two

In 2020,the Nobel Peace Prize was awarded to the World Food Programme (WFP).

Why a Nobel Prize for the WFP,and why now?In 2019,the WFP assisted nearly 100 million people in 88 countries.It is the safety net for those who fall off the edge of existence.It is a response to solving the problem of food instability.Its Nobel Prize reminds us all of the moral hazard in imagining that the poor and vulnerable are somebody else's problem.

The WFP has been around since 1961 and has been the global coordinator of nationally based efforts to avoid disasters with food aid.Despite decades of effort to eliminate hunger,the latest estimate is that about 11%of people on the planet (about 820 million people)are suffering daily undernourishment.Progress at reducing undernourishment has stopped despite gains through the 1990s and 2000s.

Developed countries sometimes offer food and aid to developing ones,but at a price. One American philosopher stated that addressing the needs of the poor and vulnerable is about more than money—it is mostly about creating conditions under which prosperity and opportunity can thrive.When aid is offered with heavy conditions attached,like loan repayment or food for resources,it often widens the gap between rich and poor and sustains the old world order.This is why the work of the WFP is so vital.

The scientific community,however,can provide a helping hand to the WFP.By sharing knowledge of agriculture and climate with peers in countries most vulnerable to poverty and hunger,scientists can help reduce these problems.By making its voice heard, science can lead by example.The ability to overcome food shortages that must be built into some of the poorest countries will not come from loans from wealthy countries,which may have food problems of their own,or world economic institutions.This ability will be built upon self-confident people using open and shared scientific knowledge to pull themselves out of their misery.

1. **What does the WFP's winning of the Nobel Peace Prize make us realize?**

A. More and more people in the world are suffering from starvation.
B. All of us can be affected by food instability one way or another.
C. It is hazardous to leave millions of people poor and vulnerable.
D. It is morally wrong to think helping the poor is not our business.

2. **What do we learn about the WFP's effort to eliminate hunger?**

A. It has ensured a sufficient food supply to millions.
B. It is still far from its goal despite the progress made.
C. It has done a good job in combating natural disasters.
D. It is preventing starvation occurring on a global scale.

3. **What will happen when food aid is offered at a price?**

A. The rich will become richer and the poor poorer.
B. More people will be willing to join in the effort.
C. More food will be made available to the needy.
D. The relief effort will be rendered less sustainable.

4. **How can scientists help cope with poverty and hunger?**

A. By collaborating closely with world economic institutions.
B. By sharing expertise with peers in poverty-stricken nations.
C. By setting up more food research programs in developing countries.
D. By building self-respect in people suffering from undernutrition.

5. **What message does the author try to convey at the end of the passage?**

A. Wealthy nations should solve their own food problems first.
B. Rich countries should be more generous in providing food aid.
C. Poor nations should enhance their own ability to solve their food shortages.
D. World economic institutions should play a bigger role in fighting hunger.

Part IV 翻译 (Translation)

Directions:For this part,you are allowed 30 minutes to translate a passage from Chinese into English.You should write your answer on Answer Sheet 2.

立春 (Start of Spring) 在中国农历中表示春天的开始。立春之后，白天变得更长，天气 也愈发温暖，万物开始复苏，大地充满生机。人们常说“一年之计在于春”,农民在这个时节开 始播种，为全年的丰收打下基础。中国人早在三千年前就已开始在立春这一天举行庆祝活动。 数百年来，迎春一直是民间的重要习俗。在春暖花开的日子里，人们常常外出游玩，欣赏春 天的美景。

听力原文 / Transcripts

新闻听力原文 / News Report（英文）

College English Test, Band 4, Part 2, Listening Comprehension, Section A, Directions. In this section, you will hear three news reports. At the end of each news report, you will hear two or three questions, both the news report and the questions will be spoken only once.
After you hear a question, you must choose the best answer from the four choices marked
A, B, C, and D. Then mark the corresponding letter on answer sheet 1 with a single line
through the center.
News report 1 The World Pipe Band Championships will take place in Glasgow on Saturday.
Over 120 of the world's best-pipe bands will compete at the championships.
trips. Over 4,000 pipers and drummers are expected to descend on the city for the annual event.
It will take place at the St. James Plain Fields in Glasgow on Saturday 18 May from 10
A.M. until 7 p.m. The event is free. Also, a free shuttle bus will run between the event
car parks and the competition site. Shuttle buses will run every 15 minutes from 8 a.m.
until 8pm.
Glasgow City Council says it is estimated to bring 300,000 pounds to the local economy.
The first World Pipe Band Championships were held in Edinburgh in 1947.
The event first took place in Glasgow in 1948.
It has been held regularly in Glasgow since 1986.
Questions 1 and 2 are based on the news report you have just heard.
Question 1. What event will take place in Glasgow?
Question 2. What does Glasgow City Council say the event will do?
New report 2. Summer doesn't begin for two more days, but scientists are already sounding
the alarm about dangerous ice melts going on right now in Greenland. The vast island
usually locks away enough fresh water in its ice sheet, which, if melted, can raise global
sea levels by 6 meters.
And research shows that in recent years, its ice has melted faster than ever before.
This month, as temperatures in northwestern Greenland approach all-time highs, researchers
are encountering unusual, surprising levels of melting ice in the region.
The most significant concern here is how early this is all happening. Greenland experiences
annual ice melt and growth cycles, but this year the melting season began in early May.
That's a month earlier than normal, and something that's happened only once before in the
historical record in 2016. That means that not only is the ice melting very fast, it has more
time to melt this summer, then it would in a normal climate system.
Longer melt seasons like this one seem to lead to much greater contributions to see
level rise than in previous decades.
Questions 3 and 4 are based on the news report you have just heard.
Question 3.
What is scientists warning in the news report?
Question 4. What do we learn about this year's ice melting season in Greenland?
News Report 3 Bundles containing thousands of pounds in cash keep turning up on the streets
of black hall-collarry in northern England according to police.
Residents of the village have been coming across bundles of 20-pound notes, usually worth
2,000 pounds, in the former mining village in County Durham.
The latest discovery was on Monday, meaning four of these cash bundles have been handed
in this year, and 13 since 2014.
The bundles are usually left in plain sight and have been scattered across the small
coastal village.
The owner has two weeks to collect the cash, which is then returned to the finder if not claimed,
according to Peter Lee police.
A Durham police spokesperson said the money has been returned to the lucky finders in all cases except yesterday.
Policeman John Forster said in the statement,
the circumstances remain a mystery, so we would welcome any information that will help us get to the bottom of these random incidents.
He told the Northern Echo, it isn't an affluent part of the world, so for them to find
cash of that amount, and instantly think about taking it to the police stations shows the
community spirit there is.
Questions 5-7 are based on the news report you have just heard?
Question 5.
What happened on the streets of Black Hall, Coloring?
Question 6. What do the local police do with the money if not claimed in two weeks?
Question 7. What did the police man John Forster say about the villagers?

长对话听力原文 / Conversations（英文）

Section B, directions. In this section, you will hear two long conversations. At the end of each conversation, you will hear four questions.
Both the conversation and the questions will be spoken only once. After you hear a question, you must choose the best answer from the four choices marked A, B, C, and D.
Then, mark the corresponding letter on answer sheet 1 with the single line through the center.
Conversation 1
It's your birthday next week. What have you got planned?
I'm not sure. I often feel strange on my birthday. It's like my brain decides to have a crisis.
It's not entirely unusual to feel anxious or sad around your birthday.
Birthdays can tap into a lot of things people worry about, including their achievements in life,
in the past decade, or their accomplishments of the past year.
Many begin to search for the meaning of their existence, leading to behaviors such as ending
or starting a relationship, or plans like starting a vigorous diet or fitness program.
I have wonderful friends, and I love celebrating their birthdays, but I don't like being
center of attention, receiving gifts and having a fuss made.
It seems to trigger a type of social anxiety.
I think social media too can intensify things as birthdays now play out more publicly.
Birthday reminders can be helpful, but I kind of worry I won't be able to drum up my
own day and show it to look as exciting as it is supposed to be.
Well, to deal with the birthday blues, you should not isolate yourself.
It's best to gradually face your birthday with people you trust.
That would help you learn self-acceptance, or that it's okay to be the focus.
Perhaps, or I could perceive my birthday as an opportunity to do something for others,
like asking people to make a donation instead of buying a gift.
Exactly.
Or even simply see your birthday as an opportunity to bring people together for them to have fun.
Questions 8 to 11 are based on the conversation you have just heard.
Question 8.
How does the man often feel on his birthday?
Question 9.
What does the women say many people tend to do on their birthday?
Question 10. What does the man say about birthday celebrations?
Question 11. What does the woman suggest the man do about his birthday celebration
at the end of the conversation?
Conversation 2 The Metro was absolutely terrible this morning.
Oh, was there a delay?
No, but the train was so packed that I could barely move, and it was difficult to breathe, too.
At every station, more people squeezed in, and I got pushed further and further inside.
When I got to my station, I could hardly get out.
Once I did get out, I was totally exhausted.
That sounds like a nightmare.
Why didn't you take the bus?
The bus takes twice as long, and it's just as crowded.
Well, what's the alternative? Haven't you got a car?
I've got a driver's license, but that's all.
I'm saving up to buy something reasonably small and cute,
but it's still a bit expensive for me, and it'll take a while before I have enough money.
Have you thought about getting an electric motorbike?
I considered that for maybe a minute, but honestly,
I've just seen too many horrible accidents involving those dangerous monsters.
What about those popular sharebikes? You could register to use one?
Yeah, that's a possibility. There are always several of those bikes out in front of our apartment complex.
Or you could just walk to work.
Well, it's five kilometers from home to the office, but you've given me a thought.
I could take a change of clothes and jog to work.
But at this time of year, the air pollution is a real problem.
Oh yeah, I didn't think of that.
Yet a taxi if you really have to.
Well, that's an expensive way to get to work.
Not if you use a ride-sharing app.
Good idea.
I'll download one immediately.
Thank you.
Questions 12 to 15 are based on the conversation you have just heard.
Question 12.
What does the woman say about her subway ride?
Question 13. Why hasn't the woman got her own car?
Question 14. What does the woman say about electric motorbikes?
Question 15. How was the woman
going to get to work.

听力篇章原文 / Passages（英文）

Section C, directions. In this section, you will hear three passages. At the end of each passage, you will hear three or four questions.
Both the passage and the questions will be spoken only once. After you hear a question, you must choose the best answer from the four choices marked A, B, C, and D.
Then marked the corresponding letter on answer sheet 1 with the single line through the center.
Passage 1
Steve Miller began his career in IT back in the late 1980s, being a deaf person in tech,
required a huge amount of effort and organization.
Because there was no email or text message service, everything had to be done face-to-face,
or by telephone. Communicating in meetings was very difficult. He needed a sign language interpreter
for every meeting, but it was a huge effort to coordinate. These days, although challenges
still remain, it's a good time to be a deaf person in tech, says Miller. Big advances in speech
recognition technology have enabled communication tools to turn live speech into text in real time
on your smartphone or laptop, and sign language into text as well.
New tech coupled with improvements in hearing aid technology and medical advances means that Miller is able to focus far more on his work.
He is benefited to a great extent from a tiny hearing device in his ear.
It gives him a degree of hearing, and he can use a variety of communication methods depending on the situation.
He can employ lip reading and have meetings via video instead of on the phone.
These things have made a huge difference.
He no longer has to worry about whether or not he can understand.
He can just concentrate on how interesting the meeting might be and what he needs to get
out of it in order to progress.
Question 16-18 are based on the passage you have just heard.
Question 16.
What do we learn about Steve Miller?
Question 17.
What does Miller say is making things better for people like him?
Question 18.
In what way can Miller benefit from attending meetings via video?
Passage 2.
Color is now spreading through our homes.
Up-stair cases across wood frames and ceilings, filling in neutral spaces.
According to one interior designer, when people return home, they want to see colors that
cheer them up and give them a hug.
Peer white walls simply don't do that.
They don't look after you.
Another interior designer commented that certain combinations can key into something on a
per level, transporting you to a different moment in time. That's the power of color.
If you are thinking to try color on some of your neutral walls, the advice is
refreshingly simple. Choose a color you actually like. Don't go for a color because it's in
fashion or you've seen it in a magazine. If you're wary of full color, test your tolerance
with smaller spaces such as the inside of a cupboard or a bright window frame.
If it gives you joy every time you open the cupboard you can start to take it further.
One can also paint the wooden frame works the same color as the walls, helping the
rooms look bigger. In the kitchen painting the overhead cupboards and the walls in the
same color can make it feel more spacious while painting the kitchen counters a bold
color can make everything feel more open and lighter.
Additionally, a painted ceiling is a magical thing without being too obvious and can affect
how the space feels as well.
Questions 19-21 are based on the passage you have just heard.
Question 19.
What do people want upon returning home according to the passage?
Question 20. What does the passage say people should avoid doing in home decoration?
Question 21. What can one do to make a room look bigger?
Passage 3. Parents often hear that reading to their children is critical for supporting development,
and the message is getting through to them. In fact, in the United States, a little over half
of children between the ages of 3 and 5 were read to every day in 2007 and 83% of children
in that age group in the same country were read to 3 or more times per week in 2012.
This is good news because reading to young children helps their language and brain development.
In fact, recent research has found that both the quality and quantity of shared book
reading in infancy predicted later childhood vocabulary and reading skills.
In other words, the more time parents spend reading, the greater the developmental benefits
in their four-year-old children.
This is an important finding, but does it matter what books parents read?
A new study has investigated this question, if followed infants across the second six months
of life, and found that when parents showed babies' books that had faces or objects with
specific labels, they learned more.
This is in contrast to books that did not name images or books that had the same label under
each image.
Books that named different characters also promoted greater learning.
So what does this mean for parents?
Not all books are created equal, so parents need to choose the books they share with their children with a great care.
Questions 22 to 25 are based on the passage you have just heard. Question 22. What does the passage say parents increasingly understand?
Question 23. What can predict children's reading skills according to recent research?
Question 24. What kind of books are said to help babies learn more?
Question 25. What are parents advised to do at the end of the passage?
That's the end of listening comprehension.
