It's a fantasy that goes back centuries:a message in a bottle,carried ashore from far-off lands.Authors, artists and children __26__ have dreamed of such a gift from the sea.

This time,though,it's not a bottle that washes ashore.It's eggs-thousands of little toy eggs.

That's what happened on the German island of Langegoog this week.

Lying just off the North Sea coast,it found itself. __27__ by an invasion of colored plastic eggs—much to the __28__ of local children,because the eggs contained toys.

Police __29__ the eggs came from a freighter that lost part of its cargo during an unusually __30__ storm,the worst to hit Germany's northeastern coast since 2006.

At any rate,what was lost has now been found by many of the community's littlest residents.

"The surprise eggs have found their way to freedom," said Mayor Uwe Garrels.However,the joy of the moment. __31__ off soon.

Directions: For this part, you are allowed 30 minutes to translate a passage from Chinese into English. You should write your answer on Answer Sheet 2.

近年来，越来越多的城市居民为农村的田园风光所吸引，利用节假日到乡村旅游。他们住在农民家中，品尝具有当地风味的农家饭菜。有些游客还参与采摘瓜果等活动，亲身感受收获的喜悦。乡村旅游能够有效地帮助游客舒缓压力，放松心情，增进身心健康。实际上，这种旅游形式不仅能使城市游客受益，同时也能增加农民的收入，促进农村经济发展。

News Transcript (EN)

1
00:00:00,000 --> 00:00:09,220
College English Test, Band 4, Part 2, Listening Comprehension, Section A, Directions.

2
00:00:10,060 --> 00:00:17,780
In this section, you will hear three news reports. At the end of each news report, you will hear two or three questions.

3
00:00:18,400 --> 00:00:28,080
Both the news report and the questions will be spoken only once. After you hear a question, you must choose the best answer from the four choices,

4
00:00:28,080 --> 00:00:37,480
marked A, B, C, and D. Then mark the corresponding letter on answer sheet 1 with a single line through the center.

5
00:00:38,520 --> 00:00:45,100
Use report 1. African leaders planned to turn the continent into a continent without borders.

6
00:00:46,240 --> 00:00:51,100
They will introduce a single passport policy allowing free movement between countries.

7
00:00:51,100 --> 00:00:57,860
The idea from the African Union has been modeled on the EU-Shengen Free Movement Deal.

8
00:00:58,980 --> 00:01:05,000
Europe has abolished many internal borders. This enables visa-free movement across the continent.

9
00:01:06,200 --> 00:01:11,640
Currently, 13 African countries have visa-free deals in place with each other.

10
00:01:12,300 --> 00:01:15,960
These allow citizens to visit another country without a visa.

11
00:01:17,100 --> 00:01:19,100
Some countries offer visas on arrival.

12
00:01:19,100 --> 00:01:26,220

In contrast, Americans are able to travel to 20 of the continent's countries without a visa,

13
00:01:26,760 --> 00:01:28,940
or secure a visa on arrival.

14
00:01:30,160 --> 00:01:36,440
The African Union, which represents 54 states, wants to abolish the requirement of a visa

15
00:01:36,440 --> 00:01:39,520
for Africans visiting other African countries.

16
00:01:40,340 --> 00:01:45,340
It also wants to establish a free trade deal across the continent in the near future.

17
00:01:45,340 --> 00:01:50,280
As trade within the African continent, cost more than any other region.

18
00:01:51,980 --> 00:01:55,860
Questions 1 and 2 are based on the news report you have just heard?

19
00:01:56,480 --> 00:01:59,740
Question 1. What is the news report mainly about?

20
00:02:14,760 --> 00:02:20,620
Question 2. What benefit will a free trade deal bring to African economy?

21
00:02:35,540 --> 00:02:37,940
News Report 2.

22
00:02:38,680 --> 00:02:44,660
Researchers in Iceland found a new way of tackling climate change by pumping carbon dioxide

23
00:02:44,660 --> 00:02:47,440
underground and turning it into stone.

24
00:02:48,460 --> 00:02:54,920
Other carbon capture and storage methods store carbon dioxide as a gas, but problems include

25

00:02:54,920 --> 00:02:57,500
a high cost and concern about leaks.

26
00:02:57,500 --> 00:03:07,180
This new method of barring carbon dioxide and turning it into stone is cheaper and more secure the Guardian reports.

27
00:03:08,600 --> 00:03:23,060
To turn carbon dioxide into stone, researchers with the Carb-Fix project pumped the gas into volcanic rock and sped up the natural process in which the volcanic rock reacts with gas and forms carbon minerals.

28
00:03:23,060 --> 00:03:26,900
The gas turned into solid in just two years.

29
00:03:27,480 --> 00:03:31,460
Much faster than the hundreds or thousands of years researchers had predicted.

30
00:03:32,640 --> 00:03:36,740
The research took place at Iceland's Hela Shidi power plant.

31
00:03:37,460 --> 00:03:43,660
Already, the project in Iceland has been increased in scale to bury 10,000 tons of carbon dioxide

32
00:03:43,660 --> 00:03:44,500
each year.

33
00:03:45,440 --> 00:03:50,820
One potential difficulty is that for each ton of carbon dioxide buried, the technique

34
00:03:50,820 --> 00:03:53,100
requires 25 tons of water.

35
00:03:54,000 --> 00:03:57,860
However, the lead researcher said sea water could be used.

36
00:03:59,280 --> 00:04:02,920
Questions 3 and 4 are based on the news report you have just heard.

37
00:04:03,680 --> 00:04:04,660

Question 3.

38
00:04:05,160 --> 00:04:08,560
What new method has been developed to help fight climate change?

39
00:04:23,219 --> 00:04:29,040
Question 4. What is a potential difficulty in applying the new technique?

40
00:04:43,640 --> 00:04:51,040
News report 3 People in France are keeping away from the narrow French stick-loaf in favor

41
00:04:51,040 --> 00:04:55,860
of healthier cheaper options and Miller's Association has said.

42
00:04:55,860 --> 00:05:02,040
The National Association of French Millers says bread consumption is on the decline.

43
00:05:02,820 --> 00:05:07,100
With French people eating 9 grams less than in the previous year.

44
00:05:08,060 --> 00:05:13,620
The association is concerned about the effects this trend will have on their trade, and

45
00:05:13,620 --> 00:05:16,020
suggests three reasons why it is happening.

46
00:05:17,120 --> 00:05:20,500
Firstly, the association cited changing diets.

47
00:05:21,020 --> 00:05:24,260
In particular, this switched to those low in calories.

48
00:05:24,260 --> 00:05:27,920
as a factor in the reduction of bread consumption.

49
00:05:29,360 --> 00:05:33,960
This could explain why the difference in consumption between genders is so big.

50

00:05:35,000 --> 00:05:40,600
Nowadays, men eat an approximate average of 140 grams of bread daily,

51
00:05:41,400 --> 00:05:44,060
whereas women eat 80 to 90 grams.

52
00:05:45,380 --> 00:05:49,400
The second reason they say is lifestyle changes in the country,

53
00:05:49,400 --> 00:05:56,920
With people dedicating less time to breakfast, when bread would traditionally be eaten with butter and jam.

54
00:05:58,400 --> 00:06:02,680
Finally, the rising cost of bread is considered to be a factor.

55
00:06:03,460 --> 00:06:10,640
With the price of a French stick loaf, increasing by nearly 25% in the last 10 years.

56
00:06:12,020 --> 00:06:16,080
Questions 5-7 are based on the news report you have just heard?

57
00:06:16,080 --> 00:06:22,360
Question 5. What does the news report say about French people's bread consumption?

58
00:06:37,620 --> 00:06:42,320
Question 6. What do we learn about French women from the report?

59
00:06:57,320 --> 00:07:02,840
Question 7 What is said about lifestyle changes of the French people?

Conversations (EN)

1
00:00:01,979 --> 00:00:09,060
Section B, directions. In this section, you will hear two long conversations. At the end of each

2
00:00:09,060 --> 00:00:15,200
conversation, you will hear four questions. Both the conversation and the questions will be spoken

3
00:00:15,200 --> 00:00:20,960
only once. After you hear a question, you must choose the best answer from the four choices

4
00:00:20,960 --> 00:00:29,000
marked A, B, C, and D. Then, mark the corresponding letter on answer sheet 1 with the single line

5
00:00:29,000 --> 00:00:30,280
through the center.

6
00:00:30,860 --> 00:00:32,340
Conversation 1.

7
00:00:32,680 --> 00:00:33,540
Next, please.

8
00:00:34,040 --> 00:00:38,640
Yes, I'd like to book two train tickets to London tomorrow morning, please.

9
00:00:39,180 --> 00:00:41,080
Okay, what time would you like to go?

10
00:00:41,460 --> 00:00:43,780
Well, after the rush hour, I think.

11
00:00:44,280 --> 00:00:46,600
We'd like to avoid the crowds if possible.

12
00:00:47,480 --> 00:00:49,560
So probably sometime around 10 o'clock.

13
00:00:49,920 --> 00:00:51,940
No problem, just give me a minute.

14
00:00:53,000 --> 00:00:57,460
There's one here at 947, then one at 1012,

15
00:00:57,460 --> 00:00:59,820
And then a third at 1026.

16
00:01:00,600 --> 00:01:03,620
The one at 12 minutes past 10 sounds good.

17
00:01:04,000 --> 00:01:04,480
All right.

18
00:01:04,959 --> 00:01:07,560
Would you like to sit in first or second class?

19
00:01:08,000 --> 00:01:09,820
Second class is fine. Thanks.

20
00:01:10,500 --> 00:01:13,280
Is there any chance we could have a window seat for one of those?

21
00:01:13,480 --> 00:01:14,160
No problem.

22
00:01:14,820 --> 00:01:17,540
And I've booked those seats next to each other for you.

23
00:01:17,900 --> 00:01:21,600
The total price is 36 pounds, 50 cents.

24
00:01:22,120 --> 00:01:23,400
Is there anything else?

25
00:01:23,800 --> 00:01:24,740
Yes, actually.

26
00:01:24,740 --> 00:01:27,500
We'll be taking our bicycles with us.

27
00:01:27,820 --> 00:01:29,220
What is the arrangement for that?

28
00:01:29,400 --> 00:01:30,540
And will it cost extra?

29
00:01:31,020 --> 00:01:32,380
It's no extra cost.

30
00:01:32,520 --> 00:01:33,840
The price will be the same.

31
00:01:34,360 --> 00:01:37,340
All you need to do is wait at the far end of the platform.

32
00:01:38,140 --> 00:01:42,800
When the train arrives, tell the train guard where you're going, and he will help you secure

33
00:01:42,800 --> 00:01:46,020
the bicycles in the last carriage and give you a ticket.

34
00:01:46,820 --> 00:01:50,280
Then you can walk down through the train to your carriage and take your seats.

35
00:01:50,280 --> 00:01:55,080
When you arrive in London, hand the ticket to the guard and he will return the bicycle

36
00:01:55,080 --> 00:01:56,140
to you.

37
00:01:56,460 --> 00:01:57,540
Thank you for the information.

38
00:01:57,860 --> 00:01:59,000

That's very helpful.

39
00:02:00,220 --> 00:02:04,480
Questions 8-11 are based on the conversation you have just heard.

40
00:02:05,080 --> 00:02:06,140
Question 8.

41
00:02:06,480 --> 00:02:08,639
When would the man like to leave for London?

42
00:02:23,940 --> 00:02:27,620
Question 9. What is the man's other request?

43
00:02:42,720 --> 00:02:46,620
Question 10. Where should the man wait for the train?

44
00:03:01,740 --> 00:03:06,000
Question 11. What should the man do to collect the bicycles?

45
00:03:22,280 --> 00:03:23,420
Conversation 2

46
00:03:23,800 --> 00:03:30,340
Good morning. Our guest today is Karen Brooke. Karen is the managing director of

47
00:03:30,340 --> 00:03:35,760
Cube Movie Theater located on Underhill Road. Thank you for coming Karen.

48
00:03:36,140 --> 00:03:41,080
Thank you for having me. So tell us about your cinema. Cube Movie Theater.

49
00:03:41,460 --> 00:03:50,260
Sure. Cube Movie Theater has been around now for 11 years. It's located in what used to be a

50
00:03:50,260 --> 00:03:57,600
Yeah, there used to be many hat factories in Britain and tell around the 1950s, but fashion

51

00:03:57,600 --> 00:04:03,420
changed and most people stopped wearing hats. So practically all of those factories had to

52
00:04:03,420 --> 00:04:10,900
close down. This one in particular was closed for 47 years before we transformed it into a movie theater.

53
00:04:11,320 --> 00:04:17,360
I see. I hear there's something else that makes your theater special. What is it that sets you apart

54
00:04:17,360 --> 00:04:18,680
from other theaters.

55
00:04:19,220 --> 00:04:23,980
We are the only movie theater in the whole country that only shows foreign movies.

56
00:04:24,640 --> 00:04:26,220
Is there enough demand for that?

57
00:04:26,640 --> 00:04:30,700
I would have thought that in London most people don't speak foreign languages.

58
00:04:31,300 --> 00:04:32,840
Sure, there's enough demand.

59
00:04:33,220 --> 00:04:37,700
The fact that we have been open and in business for all these years proves it.

60
00:04:38,180 --> 00:04:40,720
London is a very large and international city.

61
00:04:41,180 --> 00:04:44,300
There are lots of people interested in watching such movies.

62
00:04:44,900 --> 00:04:50,180
Furthermore, I might add, all movies come with English text at the bottom of the screen.

63
00:04:50,720 --> 00:04:55,060
So even if you don't understand what the actors say, you can still read it.

64
00:04:55,400 --> 00:04:56,040
Of course.

65
00:04:56,900 --> 00:04:58,760
What movie are you showing right now?

66
00:04:59,040 --> 00:05:01,580
This week we're showing a musical from Pakistan.

67
00:05:02,220 --> 00:05:03,140
It's very popular.

68
00:05:04,380 --> 00:05:08,920
Questions 12-15 are based on the conversation you have just heard.

69
00:05:09,660 --> 00:05:10,580
Question 12.

70
00:05:11,160 --> 00:05:13,540
What do we learn about hap factories in Britain?

71
00:05:28,359 --> 00:05:33,560
Question 13. What is special about Cube Movie Theater?

72
00:05:48,740 --> 00:05:50,100
Question 14.

73
00:05:51,060 --> 00:05:53,540
What does the man say about most people in London?

74
00:06:09,080 --> 00:06:10,020
Question 15.

75
00:06:10,020 --> 00:06:14,260
What does the woman say about foreign movies shown in London?

Passages (EN)

1
00:00:01,419 --> 00:00:15,500
Section C, directions. In this section, you will hear three passages. At the end of each passage, you will hear three or four questions. Both the passage and the questions will be spoken only once.

2
00:00:16,140 --> 00:00:23,820
After you hear a question, you must choose the best answer from the four choices marked A, B, C, and D.

3
00:00:23,820 --> 00:00:29,580
Then mark the corresponding letter on answer sheet 1 with the single line through the center.

4
00:00:30,760 --> 00:00:31,880
Passage 1

5
00:00:31,880 --> 00:00:37,720
Love them or hate them, smart phones have become an integral part of our daily lives.

6
00:00:38,160 --> 00:00:40,460
But should they be left outside the classroom?

7
00:00:41,580 --> 00:00:49,260
Nick Gibb, Minister for School Standards in England, believes schools should ban their pupils from bringing in smart phones.

8
00:00:50,099 --> 00:00:56,020
Astrid Natalie, a secondary school math teacher, incorporates phones into her classroom.

9
00:00:57,020 --> 00:01:02,320
My school doesn't have money for tablets, she says. When students use their phones for

10
00:01:02,320 --> 00:01:07,880
research, they learn they have a powerful tool in their hands. If we stop children using

11
00:01:07,880 --> 00:01:14,320
phones, we're rejecting something they care about. Meanwhile, Helen Lockhart, a registered

12
00:01:14,320 --> 00:01:18,980

nurse working for community education, supports a complete ban.

13
00:01:19,620 --> 00:01:23,720
I'm banned from mobile use at work, and my phone must be handed in.

14
00:01:24,160 --> 00:01:29,420
If I'm caught with it in my pocket, I will be subject to disciplinary procedure, which

15
00:01:29,420 --> 00:01:30,860
will impact on my career.

16
00:01:31,660 --> 00:01:36,540
We need to teach children how to behave like the professionals they're striving to become.

17
00:01:37,500 --> 00:01:42,240
Richard Stone and English teacher thinks there should be a clear separation between school

18
00:01:42,240 --> 00:01:42,860
and home.

19
00:01:42,860 --> 00:01:46,340
Students should do things differently in the two environments.

20
00:01:47,140 --> 00:01:51,040
Children are getting more than enough screen time in their lives without the need to bring

21
00:01:51,040 --> 00:01:52,460
their phone into the classroom.

22
00:01:53,460 --> 00:01:59,380
The internet is too easy and too unreliable or research tool, so let's leave phones and

23
00:01:59,380 --> 00:02:03,080
laptops at home and show them a different world in their lessons.

24
00:02:03,740 --> 00:02:06,260
One of books and pens, he says.

25

00:02:07,160 --> 00:02:11,180
Question 16-18 are based on the passage you have just heard.

26
00:02:11,180 --> 00:02:17,580
Question 16. What do we learn about Astrid Natalie, a secondary school math teacher?

27
00:02:32,740 --> 00:02:41,120
Question 17. Why does Helen Lockhart, a registered nurse, support a complete ban on smart phone use in the

28
00:02:42,380 --> 00:02:43,260
classroom

29
00:02:56,960 --> 00:03:00,820
Question 18. What should students do in the classroom

30
00:03:00,820 --> 00:03:03,940
according to Richard Stone and English teacher?

31
00:03:19,760 --> 00:03:25,900
Passage 2. Kate, a six-year-old girl, helped her brother Wash Windows to get a reward

32
00:03:25,900 --> 00:03:32,060
promised by her mother. A purple doll that she wanted. She watched her mother order the

33
00:03:32,060 --> 00:03:38,160
doll online. The next day, Kate asked if she could check the shipping status, so her mom

34
00:03:38,160 --> 00:03:43,520
clicked on the webpage, and then walked out of the room. Kate saw that her doll would

35
00:03:43,520 --> 00:03:49,700
be arriving the next afternoon, but then she noticed something else. Suggestions about other

36
00:03:49,700 --> 00:03:57,500
dolls and toys she could order. 15 minutes and a few clicks later, with more than $350 worth

37
00:03:57,500 --> 00:04:08,140
of dolls in her cart, Kate placed the order, and ran off to play. The next day, while

38
00:04:08,140 --> 00:04:09,380
dolls on the way.

39
00:04:09,820 --> 00:04:14,260
She was able to cancel two of them, but it was too late to cancel the rest.

40
00:04:14,940 --> 00:04:17,579
She told her daughter that they were going to be returned.

41
00:04:18,500 --> 00:04:23,600
When the packages arrived, Kate wanted to open them, but her parents said no.

42
00:04:24,180 --> 00:04:29,040
Instead of sending back the dolls, her father suggested giving them to the local children's

43
00:04:29,040 --> 00:04:29,380
hospital.

44
00:04:30,360 --> 00:04:35,620
So the next week, Kate's family loaded up their car and took all the dolls to the playroom

45
00:04:35,620 --> 00:04:36,960
at the children's hospital.

46
00:04:37,599 --> 00:04:43,380
Kate was depressed at first, but then she sat with some girl patients and they opened

47
00:04:43,380 --> 00:04:50,260
up all the boxes together, laughing and playing. She had a lot of fun and learned a really

48
00:04:50,260 --> 00:04:51,180
good lesson.

49
00:04:52,260 --> 00:04:59,860
Questions 19-21 are based on the passage you have just heard. Question 19, how did Kate

50
00:04:59,860 --> 00:05:01,540
earn the reward from her mother?

51
00:05:16,820 --> 00:05:21,460
Question 20. What did Kate do after her mother left the room?

52
00:05:36,400 --> 00:05:42,060
Question 21. What did Kate's family do after the packages arrived?

53
00:05:57,360 --> 00:05:58,760
Passage 3.

54
00:05:59,560 --> 00:06:03,680
Can the date you were born affect how successful your life is?

55
00:06:04,520 --> 00:06:08,500
According to recent research done in Australia, the answer is yes.

56
00:06:09,340 --> 00:06:14,540
The researchers found that the time when a person starts school has an enduring impact

57
00:06:14,540 --> 00:06:15,560
on their lives.

58
00:06:15,560 --> 00:06:21,920
Those who are relatively old compared to their classmates have certain advantages over them.

59
00:06:22,580 --> 00:06:26,620
Previous research has found older students achieve better results.

60
00:06:27,460 --> 00:06:33,620
They are also more likely to attend university and become professional athletes, chief executives,

61
00:06:34,260 --> 00:06:35,960
and even important politicians.

62
00:06:37,240 --> 00:06:42,280
But the Australian researchers wanted to discover what was driving these differences.

63
00:06:42,280 --> 00:06:48,960

They suspected older, more mature students obtained more self-confidence than their peers,

64
00:06:49,360 --> 00:06:51,040
because they achieved better grades.

65
00:06:52,280 --> 00:06:55,120
To test this out, they conducted two studies.

66
00:06:56,080 --> 00:07:01,060
One was with high school students and the other with more than 1,000 Australian adults.

67
00:07:01,680 --> 00:07:04,720
Age between 24 and 60 years old.

68
00:07:04,720 --> 00:07:10,920
In the first study, more than 600 high school students were surveyed about their tendency

69
00:07:10,920 --> 00:07:13,320
to take risks and feel confident.

70
00:07:14,420 --> 00:07:19,740
In the second study, those born on both sides of the cut-off date for starting school

71
00:07:19,740 --> 00:07:24,040
were asked to complete online math questions and rate their performance.

72
00:07:25,120 --> 00:07:30,260
They were also asked about the risks they took while writing bicycles and managing their

73
00:07:30,260 --> 00:07:30,780
finances.

74
00:07:30,780 --> 00:07:38,460
The researchers found that older students displayed greater risk-taking tendencies, while

75
00:07:38,460 --> 00:07:41,540
risk-taking can be considered a negative attribute.

76

00:07:42,000 --> 00:07:48,020
It's also a characteristic of successful people, including athletes, political leaders,

77
00:07:48,720 --> 00:07:49,560
and entrepreneurs.

78
00:07:51,060 --> 00:07:55,700
Questions 22-25 are based on the passage you have just heard.

79
00:07:56,380 --> 00:07:57,220
Question 22.

80
00:07:57,220 --> 00:08:04,220
According to recent research conducted in Australia, what has a lasting impact on one's life?

81
00:08:19,340 --> 00:08:23,940
Question 23. What was the purpose of the Australian research?

82
00:08:38,740 --> 00:08:44,460
Question 24. Who were the participants and the researchers first study?

83
00:08:59,280 --> 00:09:07,180
Question 25. According to the researchers, what is one characteristic of successful people?

84
00:09:21,980 --> 00:09:24,360
That's the end of listening comprehension.
