Section A news

短新闻

🎧 听力音频：audio/SectionA.mp3（请使用离线包 papers 目录下对应 audio 文件夹播放）

1. **What does the news report say about friends' brains?**

   A. Their brains work in harmony.

   B. They are generally the same age.

   C. Their interests are quite similar.

   D. They have the same ethnic background.

2. **What does the news report say about the relationship between friends?**

   A. It can be touching.

   B. It is hard to predict.

   C. It can work both ways.

   D. It resembles family ties.

3. **What did both Alan Robinson and Walter McDonald attempt to do on DNA matching websites?**

   A. Search fbr their half-brothers.

   B. Identify their biological fathers.

   C. Find out more about their ancestry.

   D. See whether they are actually related.

4. **What did the news report say about Alan Robinson and Walter McDonald?**

   A. They were both given up for adoption.

   B. They were born to the same mother.

   C. They flew 737 airplanes as pilots.

   D. They were both 60 years of age.

5. **What made the Australian tourist feel sad?**

   A. One of his friends was caught littering.

   B. Other tourists refused to join in the cleanup.

   C. The beautiful beach was spoiled with lots of trash.

   D. The kilometer-long beach was practically deserted.

6. **Who put the good deed video on the internet?**

A. A passerby.

B. A local woman.

C. The beach authorities.

D. One of the five tourists.

7. **Why did one local woman say she was embarrassed?**

A. The tourists' good deed was not noticed by the locals.

B. Some natives were selling poor-quality food to tourists.

C. The number of tourists to the beach is on a steady decline.

D. It was tourists not natives who were cleaning up the beach.

Section B conversations

长对话

🎧 听力音频：audio/SectionB.mp3（请使用离线包 papers 目录下对应 audio 文件夹播放）

1. **Why can't The man go for a run Saturday morning.**

   A. He has to play football with workmates.

   B. He has got some books to read.

   C. He is going to visit a friend.

   D. He is physically unfit for it.

2. **Why is the woman's whole family going to the zoo next Saturday?**

   A. To teach kids about animal protection.

   B. To learn how popular zoos could be.

   C. To see some rare animals in cages.

   D. To give her little nephew a treat.

3. **What do we learn about Dan from the man's description?**

   A. He enjoys excellent health.

   B. He is keen on extreme sports.

   C. He coaches tennis players every week.

   D. He spends most of his time in the gym.

4. **What has the man been doing since last weekend?**

   A. Tending to his swollen ankle.

   B. Concentrating on reading.

   C. Writing three book reports.

   D. Planning Christmas celebrations.

5. **What do we learn about the man's book published recently?**

   A. It is being debated by hundreds of retirees.

   B. It is attracting many people's attention.

   C. It partly records his own experience.

   D. It argues for postponing retirement.

6. **What do the articles the woman read recommend?**

A. One should foresee a financial crisis.

B. One should trust financial planners, figures.

C. One should have one million dollars to retire.

D. One should start saving as early as possible.

7. **What does the man say about retirement?**

A. It doesn't need to be permanent.

B. It shouldn't be considered risky.

C. It helps to reduce travel expenses.

D. It is the way to quit a job one hates.

8. **How does the man say his proposal about retirement can be carried out?**

A. By keeping close contact with one's employers.

B. By retiring when one reaches sixty years old.

C. By investing half of one's monthly income.

D. By following the counsel of financial planners.

Section C passages

听力篇章

🎧 听力音频：audio/SectionC.mp3（请使用离线包 papers 目录下对应 audio 文件夹播放）

1. **What was the finding of the new research from America about consumers' food choices?**

   A. They tended to be easily anticipated by those belonging to their own race.

   B. They tended to be arbitrarily judged by individuals of opposing groups.

   C. They were readily shared among members of the same social or racial group.

   D. They were influenced by the presence of someone from an outsider group.

2. **When did 31% of students in the experiment select the healthier option?**

   A. When they tried to make a positive impression on the researchers.

   B. When an unknown student from another university was present.

   C. When an experimenter from the research team took notice.

   D. When they were offered both candy and fruit as a snack.

3. **How could a healthy diet be promoted according to the findings of the new research?**

   A. By advertising its social benefits.

   B. By teaching consumers diet strategies.

   C. By supporting struggling consumers.

   D. By maintaining its positive image.

4. **What does the recent study led by Patricia Pendry into examine?**

   A. The academic and learning issues struggling students encounter.

   B. The risk students face due to a history of mental health problems.

   C. The effect of interacting with therapy dogs on students under pressure.

   D. The work universities are doing to help students succeed academically.

5. **What did the new study measure in the participants?**

   A. Their communicative skills.

   B. Their executive functioning.

   C. Their academic networking.

   D. Their leadership capacities.

6. **What does Patricia Pendry think traditional stress management programs may do?**

A. Rid students of their anxiety.

B. Add to some students' stress.

C. Contribute little to typical students' success.

D. Help students with mental issues pull through.

7. **What do entrepreneurs have to do when taking risks according to the passage?**

A. Work hard and plan carefully.

B. Attempt to succeed at any cost.

C. Aim high and expect great results.

D. Remain optimistic even in difficulty.

8. **What does the passage say is key to business growth?**

A. Regarding failure as something inevitable.

B. Trying out innovative marketing strategies.

C. Venturing into sectors never explored before.

D. Being willing to experiment with novel ideas.

9. **What are we advised to do when we fail?**

A. Expect future success so as to move forward.

B. Learn from our failure and forge ahead.

C. Distinguish between good and bad risks.

D. Examine our strategies and find out weaknesses.

10. **What does it mean to risk taking businesses when most people tend to avoid risk?**

A. Fresher offers.

B. Safer operation.

C. More challenges.

D. Less competition.

Section A word_fill

选词填空

Exercising for just 10 minutes a week is linked to a longer life, according to a new study published in The British Journal of Sports Medicine.
Several recent studies have found that even low-intensity exercise, done for a short amount of time, can have a meaningful __26__ on health. Still, the idea that exercising for just 10 minutes a week may be enough to increase your lifespan is novel. It’s also somewhat __27__, since the federal physical activity guidelines recommend getting at least 75 minutes of vigorous exercise or 150 minutes of __28__ exercise each week.
The study was based on data from more than 88,000 U.S. adults who __29__ in the National Health Interview Survey between 1997 and 2008.
Contrary to some research that has found an __30__ limit to the amount of exercise that is healthy, the researchers found that there was __31__ no limit to the longevity (长寿) benefits of exercise. Even the small group of people who got 10 times the amount of exercise recommended by the federal government had a 46% lower __32__ of death than the least active group.
Still, observational studies like this one cannot prove cause and effect; they can only find __33__.
The researchers also were not able to __34__ for certain lifestyle factors that could affect lifespan, including dietary habits and changes in physical activity over time. Despite these __35__, the study’s results are yet another indication of the power of physical activity, even in small amounts.

News Transcript (EN)

1
00:00:00,000 --> 00:00:24,520
College English Test, Band 4, Part 2, Listening Comprehension, Section A, Directions. In this section, you will hear three news reports. At the end of each news report, you will hear two or three questions. Both the news report and the questions will be spoken only once.

2
00:00:24,520 --> 00:00:31,100
After you hear a question, you must choose the best answer from the four choices marked

3
00:00:31,100 --> 00:00:39,500
A, B, C, and D. Then mark the corresponding letter on answer sheet 1 with a single line

4
00:00:39,500 --> 00:00:40,600
through the center.

5
00:00:41,960 --> 00:00:48,220
New report 1. How do you notice how similar you are to your friends? It may be because

6
00:00:48,220 --> 00:00:54,440
your brains operate in harmony with each other. We know that friends are more likely to

7
00:00:54,440 --> 00:01:00,860
the same age, gender, and ethnic background as each other. Now it seems their brains

8
00:01:00,860 --> 00:01:08,800
are like two. Researchers at the University of California scanned the brains of 42 classmates

9
00:01:08,800 --> 00:01:15,460
while they watched videos intended to provoke varying responses. Some people might find a

10
00:01:15,460 --> 00:01:21,560
romantic scene touching, for instance, while others would feel it was embarrassing. The

11
00:01:21,560 --> 00:01:27,520
Activity of friends' brains was more similar than that of people who didn't know each other,

12
00:01:28,060 --> 00:01:33,020

particularly in regions involved in attention, emotion and language.

13
00:01:34,040 --> 00:01:39,400
This similarity was strong enough that it could be used to predict whether two people were

14
00:01:39,400 --> 00:01:41,160
already friends or not.

15
00:01:42,120 --> 00:01:44,680
The relationship probably goes two ways.

16
00:01:45,320 --> 00:01:48,100
We are drawn to people who think like us.

17
00:01:48,100 --> 00:01:55,120
We then influence their thoughts over time, which may push their brain activity into more

18
00:01:55,120 --> 00:01:57,620
closely resembling our own.

19
00:02:26,320 --> 00:02:32,760
Question 2. What does the news report say about the relationship between friends?

20
00:02:47,700 --> 00:02:50,360
News Report 2

21
00:02:50,360 --> 00:02:57,560
Two men who have been best friends for 60 years have just realized they are actually brothers.

22
00:02:57,560 --> 00:03:05,580
It's reported that Alan Robinson and Walter McDonald met in the sixth grade at a school in Hawaii.

23
00:03:06,140 --> 00:03:08,680
They have been best friends ever since.

24
00:03:09,640 --> 00:03:13,540
Alan was given away for adoption soon after he was born,

25

00:03:14,040 --> 00:03:16,060
and Walter never knew his father.

26
00:03:17,020 --> 00:03:21,520
So recently, they made separate attempts on DNA matching websites

27
00:03:21,520 --> 00:03:23,880
to discover more about their ancestry.

28
00:03:23,880 --> 00:03:30,260
Walter was astonished to find that he matched with website user Robby 737.

29
00:03:31,240 --> 00:03:36,560
He knew immediately that this was his best friend, Alan, whose friends call him Robby,

30
00:03:36,880 --> 00:03:40,220
and flew 737 airplanes when he was a pilot.

31
00:03:41,000 --> 00:03:45,000
The pair were born to the same mother 15 months apart.

32
00:03:46,560 --> 00:03:50,960
Questions 3 and 4 are based on the news reports you have just heard.

33
00:03:50,960 --> 00:04:00,240
Question 3. What did both Alan Robinson and Walter McDonald attempt to do on DNA matching websites?

34
00:04:15,000 --> 00:04:21,920
Question 4. What did the news report say about Alan Robinson and Walter McDonald?

35
00:04:37,160 --> 00:04:39,280
Newt Report 3.

36
00:04:39,440 --> 00:04:45,560
Amid all the election drama air pollution problems and disease outbreaks, five tourists

37
00:04:45,560 --> 00:04:47,880
could work is being spread online.

38
00:04:48,720 --> 00:04:54,280
Yesterday, two male and three female tourists were spotted walking the kilometre-long

39
00:04:54,280 --> 00:04:56,000
beach picking up trash.

40
00:04:56,000 --> 00:05:01,640
One of the male tourists from Australia commented that although there was a lot of trash,

41
00:05:01,960 --> 00:05:03,360
nobody was doing anything.

42
00:05:04,220 --> 00:05:07,460
The beach was not as nice or beautiful as it should be.

43
00:05:07,700 --> 00:05:11,900
He felt so sad to see such a gorgeous place littered with so much trash.

44
00:05:12,860 --> 00:05:18,220
Thus, he and his friends decided to grab a few trash bags and clean it all up.

45
00:05:18,800 --> 00:05:23,340
A man passing by decided to video their good deed and put it on the internet.

46
00:05:23,340 --> 00:05:28,720
It was unclear where the rest of the group was from, but they were most likely traveling

47
00:05:28,720 --> 00:05:29,460
together.

48
00:05:30,400 --> 00:05:35,260
One local woman commonsed on being embarrassed that tourists were cleaning up their beach.

49
00:05:35,880 --> 00:05:40,460
Another mentioned that it was actually the natives who brought fruit and drinks, then

50
00:05:40,460 --> 00:05:42,280
left trash all along the island.

51
00:05:43,380 --> 00:05:47,860
Questions 5-7 are based on the news report you have just heard.

52
00:05:47,860 --> 00:05:52,940
Question 5. Why did one of the male tourists feel sad?

53
00:06:07,880 --> 00:06:12,420
Question 6. Who put the good deed video on the internet?

54
00:06:27,280 --> 00:06:28,920
Question 7.

55
00:06:29,580 --> 00:06:32,660
Why did one local woman say she was embarrassed?

Conversations (EN)

1
00:00:00,940 --> 00:00:07,360
Section B, directions, in this section you will hear two long conversations.

2
00:00:08,220 --> 00:00:17,020
At the end of each conversation you will hear four questions, both the conversation and the questions will be spoken only once.

3
00:00:17,800 --> 00:00:26,360
After you hear a question you must choose the best answer from the four choices, Marked A, B, C, and D.

4
00:00:26,360 --> 00:00:32,980
Then, mark the corresponding letter on answer sheet 1 with a single line through the center.

5
00:00:34,559 --> 00:00:35,760
Conversation 1

6
00:00:35,760 --> 00:00:43,100
Hello Benjamin, Dan and I will be going for a run along the canal Saturday morning. Would you like to join us?

7
00:00:43,520 --> 00:00:48,040
I'd love to, but I hurt my ankle last weekend playing football with work colleagues.

8
00:00:48,560 --> 00:00:50,260
Oh dear, is it serious?

9
00:00:50,920 --> 00:00:56,340
No, not at all. I landed badly during a fall and twisted it a little, but it's no big deal.

10
00:00:56,340 --> 00:01:02,580
It's just a little swollen and I should be fine for next Saturday if you still want to go for a jog then.

11
00:01:02,980 --> 00:01:05,920
I won't be here next Saturday. I'm going to the zoo.

12
00:01:06,140 --> 00:01:12,740
The zoo? Yeah, my little nephew turned six and he loves the zoo. So the whole family is going.

13
00:01:13,280 --> 00:01:16,880
Oh, okay then. I haven't been to a zoo since I was a kid.

14
00:01:17,480 --> 00:01:24,480
They are nowhere near as popular as they used to be when we were children. I personally feel sorry for the poor animals,

15
00:01:24,480 --> 00:01:30,480
Stuck in cages, but there's no denying they are fun and educational for children.

16
00:01:31,220 --> 00:01:33,320
Do you know if Dan will be around next Saturday?

17
00:01:33,920 --> 00:01:39,640
Yeah, I think he will. Just send him a text message. He's always keen on physical activities.

18
00:01:40,420 --> 00:01:47,880
That's true. That is extremely fert and healthy. He goes to the gym most days, plus 10 is 2 or 3 times a week.

19
00:01:48,760 --> 00:01:52,840
So what have you been doing to stay busy while you've had that swollen ankle?

20
00:01:52,840 --> 00:02:00,000
I've been catching up on some reading. I was given three books over Christmas and I'm only now getting around to reading them.

21
00:02:01,380 --> 00:02:05,280
Questions 8 to 11 are based on the conversation you have just heard.

22
00:02:05,980 --> 00:02:10,120
Question 8. Why can't the man go for a run Saturday morning?

23
00:02:25,500 --> 00:02:31,460
Question 9. Why is the woman's whole family going to the zoo next Saturday?

24
00:02:46,720 --> 00:02:51,360
Question 10. What do we learn about Dan from the Man's Description?

25
00:03:06,540 --> 00:03:11,720
Question 11. What has the man been doing since last weekend?

26
00:03:28,480 --> 00:03:35,940
Our guest on today's booktalk is John Black, the author of the new best seller, Retire

27
00:03:35,940 --> 00:03:36,620
Early.

28
00:03:37,160 --> 00:03:38,660
Thanks for having me on the show, Lisa.

29
00:03:38,660 --> 00:03:45,060
John, your book is getting a lot of attention, partly because you write that most people

30
00:03:45,060 --> 00:03:48,040
can retire by 40. Is that realistic?

31
00:03:49,260 --> 00:03:54,660
Definitely. When researching this book, I interviewed hundreds of people who retired by 40.

32
00:03:55,280 --> 00:04:01,000
Okay, but how much money does a person need to retire? I've read articles recommending

33
00:04:01,000 --> 00:04:04,320
$1 million as a good figure for retirement.

34
00:04:04,320 --> 00:04:09,420
While most financial planners do give numbers, I don't think that's useful.

35
00:04:09,720 --> 00:04:14,360
As people are living in different areas with different costs of living and have different

36
00:04:14,360 --> 00:04:19,420
needs and wants, which is why I suggest that people aim for financial independence.

37
00:04:20,160 --> 00:04:22,660
What do you mean by financial independence?

38
00:04:23,180 --> 00:04:26,620
Having investment income that's greater than monthly expenses.

39
00:04:27,480 --> 00:04:29,140
That sounds risky to me.

40
00:04:29,140 --> 00:04:33,880
What if an accident happens or you get ill and need medical treatment?

41
00:04:34,680 --> 00:04:37,320
Shouldn't people have extra cash for emergencies?

42
00:04:38,840 --> 00:04:43,060
Too many people spend their lives working on jobs they hate because they're afraid.

43
00:04:43,580 --> 00:04:45,380
So I counsel people to take risks.

44
00:04:46,200 --> 00:04:51,360
Retirement doesn't have to be permanent and if people need to, they can go back to work.

45
00:04:52,020 --> 00:04:57,100
But it's not always easy to get back into the workforce after an extended absence.

46
00:04:57,100 --> 00:05:02,360
True, but if you keep current with your skills, you will be attracted to employers.

47
00:05:03,280 --> 00:05:09,200
Maybe, but how can anyone save enough to retire by 40 when most people can't retire at 60?

48
00:05:10,240 --> 00:05:15,840
Simple, by cutting housing, food and transport expenses, and investing half your monthly income.

49
00:05:16,340 --> 00:05:17,640
That sounds impossible.

50
00:05:18,360 --> 00:05:21,500

I admitted difficult, but it has worked for thousands.

51
00:05:22,400 --> 00:05:27,580
Question 12-15 are based on the conversation you have just heard.

52
00:05:28,500 --> 00:05:33,200
Question 12. What do we learn about the man's book published recently?

53
00:05:48,060 --> 00:05:53,360
Question 13. What do the articles the woman read recommend?

54
00:06:08,440 --> 00:06:13,060
Question 14. What does the man say about retirement?

55
00:06:28,179 --> 00:06:34,720
Question 15. How does the man say his proposal about retirement can be carried out?

Passages (EN)

1
00:00:00,000 --> 00:00:15,320
Section C, directions. In this section you will hear three passages. At the end of each passage you will hear three or four questions. Both the passage and the questions will be spoken only once.

2
00:00:15,320 --> 00:00:21,180
After you hear a question, you must choose the best answer from the four choices marked

3
00:00:21,180 --> 00:00:30,240
A, B, C and D. Then mark the corresponding letter on Ansuchit 1 with a single line through

4
00:00:30,240 --> 00:00:31,020
the center.

5
00:00:32,400 --> 00:00:39,220
Passage 1. New research from America studies the role that the presence of individuals from

6
00:00:39,220 --> 00:00:44,740
different social or racial groups has in influencing consumers food choices.

7
00:00:45,580 --> 00:00:51,300
This research found college students were more likely to choose healthy food in the

8
00:00:51,300 --> 00:00:56,360
presence of an observer of a different race, as opposed to an observer from their own

9
00:00:56,360 --> 00:00:56,820
race.

10
00:00:57,500 --> 00:01:02,420
The same was true when they were with someone from a different university compared to someone

11
00:01:02,420 --> 00:01:03,540
from their own.

12
00:01:03,540 --> 00:01:10,860
Researchers say, this was because participants anticipated more negative judgment from an outsider group.

13
00:01:11,560 --> 00:01:15,880
In contrast, they felt less judged by members of their own group.

14
00:01:16,640 --> 00:01:22,200
In one experiment, participants were offered the choice between candy and fruit as a snack.

15
00:01:23,200 --> 00:01:26,400
When in the presence of an unknown student from their own university,

16
00:01:27,160 --> 00:01:30,740
only 12% of students selected the healthier option.

17
00:01:30,740 --> 00:01:37,780
However, this number was 31% when in the presence of an unknown student from another university.

18
00:01:38,800 --> 00:01:42,740
Other experiments showed similar results based on racial group.

19
00:01:43,460 --> 00:01:44,960
What's the reason for this pattern?

20
00:01:46,040 --> 00:01:51,240
The study found that people feel judged to a larger extent by members of other groups.

21
00:01:52,380 --> 00:01:57,600
Because of this, they strategically use healthy food choices to make a positive impression.

22
00:01:57,600 --> 00:02:05,060
There have been many attempts to help consumers make healthier choices, but consumers often

23
00:02:05,060 --> 00:02:12,340
struggle to maintain a healthy diet. This research finds that one way to promote a healthy diet

24
00:02:12,340 --> 00:02:16,660
could be to advertise the social benefits of healthy choices.

25
00:02:18,240 --> 00:02:23,000

Question 16-18 Are based on the passage you have just heard?

26
00:02:23,000 --> 00:02:30,780
Question 16. What was the finding of the new research from America about consumers' food choices?

27
00:02:45,480 --> 00:02:53,460
Question 17. When did 31% of students in the experiment select the healthier option?

28
00:03:08,460 --> 00:03:15,780
Question 18. How could a healthy diet be promoted according to the findings of the new research?

29
00:03:31,100 --> 00:03:37,940
Passage 2. For college students under pressure, a dog may be the best stress fighter around,

30
00:03:38,220 --> 00:03:40,600
according to the finding of a recent study.

31
00:03:41,580 --> 00:03:46,060
It's a really powerful finding, said Patricia Pendry, who led the study.

32
00:03:46,760 --> 00:03:51,860
Universities are doing a lot of great work trying to help students succeed academically,

33
00:03:52,700 --> 00:03:58,500
especially those who may be at risk due to a history of mental health issues or academic

34
00:03:58,500 --> 00:04:04,140
and learning issues. This study shows that traditional stress management approaches

35
00:04:04,140 --> 00:04:09,680
aren't as effective for this population compared with programs that focus on providing

36
00:04:09,680 --> 00:04:16,740
opportunities to interact with therapy dogs. The researchers measured executive functioning

37
00:04:16,740 --> 00:04:23,280
in the students involved in the study. Executive function is a term for the skills one needs

38

00:04:23,280 --> 00:04:27,520
to plan, organize, motivate, concentrate, and memorize.

39
00:04:28,200 --> 00:04:31,720
These are skills students need to succeed in college.

40
00:04:33,160 --> 00:04:36,480
The researchers found that students who were most at risk

41
00:04:36,480 --> 00:04:39,700
had the most improvements in executive functioning

42
00:04:39,700 --> 00:04:42,620
after interacting with therapy dogs.

43
00:04:43,260 --> 00:04:47,860
These results remained when researchers followed up six weeks later.

44
00:04:48,960 --> 00:04:52,020
Many universities provide academic stress management

45
00:04:52,020 --> 00:04:58,400
programs and workshops. These are traditionally very similar to college classes. They often

46
00:04:58,400 --> 00:05:04,180
talk about ways to get more sleep, set goals, or manage stress, or anxiety.

47
00:05:05,320 --> 00:05:10,580
Pendry acknowledges that these are really important topics and these workshops help

48
00:05:10,580 --> 00:05:16,200
typical students succeed. But they're less helpful for struggling students. Pendry

49
00:05:16,200 --> 00:05:22,000
believes those students may experience the programs as another lecture and feel even more

50
00:05:23,320 --> 00:05:28,700
Question 19-21 are based on the passage you have just heard.

51
00:05:29,540 --> 00:05:35,560
Question 19-What does the recent study led by Patricia Pendry into examine?

52
00:05:50,780 --> 00:05:55,760
Question 20. What did the new study measure in the participants?

53
00:06:10,760 --> 00:06:19,360
Question 21. What does Patricia Pendry think traditional stress management programs may do?

54
00:06:33,840 --> 00:06:41,320
Passage 3 Taking risks in business does not mean going into business blindly and

55
00:06:41,320 --> 00:06:43,240
then expecting great results.

56
00:06:43,240 --> 00:06:51,080
On the contrary, taking risks and entrepreneurship involves careful planning and hard work.

57
00:06:52,220 --> 00:06:58,900
Nobody can really be sure if risks will be met with success, no matter how calculated they may be.

58
00:06:59,680 --> 00:07:06,180
But this should not stop you from taking risks as risks are necessary if you want your business to succeed.

59
00:07:06,180 --> 00:07:13,520
Some risks may not work out, but an optimistic risk taker will always look at failure

60
00:07:13,520 --> 00:07:15,600
as an opportunity to learn.

61
00:07:16,820 --> 00:07:21,400
The willingness to experiment with new ideas is key to business growth.

62
00:07:22,480 --> 00:07:26,560
As the old saying goes, nothing ventured, nothing gained.

63
00:07:28,060 --> 00:07:31,700
Failure will teach you how to think and plan strategically.

64
00:07:31,700 --> 00:07:40,240
But just remember that not all risks are good ones, and when you fail, learn from it and move forward.

65
00:07:41,460 --> 00:07:49,240
Since most people tend to avoid risk, businesses that are brave enough to take risks already have a competitive advantage.

66
00:07:50,380 --> 00:07:55,900
They are the ones setting the standard with new ideas, fresh offers, and bold inventions.

67
00:07:56,580 --> 00:08:01,000
Risk takers are best at adapting in difficult times.

68
00:08:02,020 --> 00:08:08,560
Simply put, when most individuals stay away from risk, it means less competition for risk takers.

69
00:08:09,780 --> 00:08:15,860
We don't know if you'll achieve what these risk takers have achieved, but for as long as you want to stay safe,

70
00:08:16,260 --> 00:08:21,620
and for as long as you're content with where your business is right now, you will never find out.

71
00:08:22,440 --> 00:08:27,640
Question 22-25 are based on the passage you have just heard.

72
00:08:28,440 --> 00:08:35,059
Question 22. What do entrepreneurs have to do when taking risks according to the passage?

73
00:08:49,960 --> 00:08:55,420
Question 23. What does the passage say is key to business growth?

74
00:09:10,400 --> 00:09:15,480
Question 24. What are we advised to do when we fail?

75
00:09:30,240 --> 00:09:37,840
Question 25. What does it mean to risk taking businesses when most people tend to avoid

76

00:09:37,840 --> 00:09:38,340
risk?

77
00:09:53,480 --> 00:09:55,960
That's the end of listening comprehension.
