Nowadays you can’ t buy anything without then being asked to provide a rating of a company’ s performance on a five-star scale.
I’ ve been asked to rate my “store __26__” on the EFTPOS terminal before I can pay. Even the most __27__ activities, such as calling Telstra or picking up a parcel from Australia Post, are followed by texts or emails with surveys asking, “How did we do?”
Online purchases are __28__ followed up by a customer satisfaction survey. Companies are so __29__ for a hit of stars that if you delete the survey the company sends you another one.
We’ re __30__ to rate our apps when we’ ve barely had a chance to use them. One online course provider I use asks you what you think of the course after you’ ve only completed __31__ 2 percent of it.
Economist Jason Murphy says that companies use customer satisfaction ratings because a __32__ display of star feedback has become the nuclear power sources of the modern economy.
However, you can’ t help but __33__ if these companies are basing their business on fabrications (捏造的东西). I __34__ that with online surveys I just click the __35__ that’ s closest to my mouse cursor (光标) to get the damn thing off my screen. Often the star rating I give has far more to do with the kind of day I’ m having than the purchase I just made.

1
00:00:00,000 --> 00:00:08,800
College English Test Band 4, Part 2, Listening Comprehension, Section A, Directions.

2
00:00:09,960 --> 00:00:17,060
In this section, you'll hear three news reports. At the end of each news report, you'll hear two or three questions.

3
00:00:17,900 --> 00:00:26,760
Both the news report and the questions will be spoken only once. After you hear a question, you must choose the best answer from the four choices,

4
00:00:26,760 --> 00:00:35,140
Mark A, B, C, and D. Then Mark the corresponding letter on answer sheet 1 with a single line

5
00:00:35,140 --> 00:00:36,300
through the center.

6
00:00:38,240 --> 00:00:40,420
News report 1.

7
00:00:41,140 --> 00:00:47,840
In 81 year old man ended up in Germany by accident. After trying to get from Newcastle,

8
00:00:48,280 --> 00:00:54,700
Great Britain, to Rome, Italy. The old age pensioner was on a mission to see the Pope,

9
00:00:54,700 --> 00:01:00,360
who is head of the Catholic Church and decided to make his way there by car.

10
00:01:01,160 --> 00:01:05,519
He was surprised when his GPS system told him he had arrived.

11
00:01:06,380 --> 00:01:10,520
Although there were no signs of any of the famous buildings or architecture.

12
00:01:11,560 --> 00:01:15,120
The man parked but didn't put on the handbrake of his car properly.

13
00:01:16,380 --> 00:01:21,080
His car rolled backwards and in a striking display of irony,

14
00:01:21,080 --> 00:01:23,680
Hit a sign, saying, Rome.

15
00:01:24,960 --> 00:01:30,000
The small town in North Germany, he had mistakenly plugged into the GPS system.

16
00:01:30,780 --> 00:01:35,180
Police said that the car had come to a halt after hitting the sign.

17
00:01:36,000 --> 00:01:40,880
But did not appear to be seriously damaged, although an ambulance was called to check

18
00:01:40,880 --> 00:01:41,980
on the pensioner.

19
00:01:42,660 --> 00:01:48,640
The man who lives in the UK and is originally Italian might have been confused by the fact

20
00:01:48,640 --> 00:01:53,800
that Rome is written Roma in Italian and Rome in German.

21
00:02:18,799 --> 00:02:23,380
Question 2. What finally happened to the old man?

22
00:02:37,920 --> 00:02:44,720
News report 2. Glasgow has pledged to become the first carbon neutral city in the UK.

23
00:02:44,720 --> 00:02:50,740
The city's Council and Scottish power have announced a range of strategies in an attempt

24
00:02:50,740 --> 00:02:55,720
to reduce carbon emissions ahead of the new national target of 2045.

25
00:02:56,620 --> 00:03:02,240

First Minister, Nicholas Sturgeon, welcomed the pledge and said, today's announcement

26
00:03:02,240 --> 00:03:08,340
between Scottish power and Glasgow City Council to make Glasgow the UK's first net-zero

27
00:03:08,340 --> 00:03:10,940
city is a very welcome step.

28
00:03:10,940 --> 00:03:17,460
Raging our goals will need exactly this kind of partnership approach, with government, business,

29
00:03:18,080 --> 00:03:22,140
local authorities and citizens all playing their part.

30
00:03:23,240 --> 00:03:28,500
Speaking ahead of the all energy conference being held in Glasgow, Scottish power chief

31
00:03:28,500 --> 00:03:35,020
executive Keith Anderson said, we have a large supply of renewable energy on our doorstep

32
00:03:35,020 --> 00:03:40,420
and one of the only two low-emission zones in action across the UK.

33
00:03:41,140 --> 00:03:47,040
Now, we need to invest in the technologies and programs that transform the rest of

34
00:03:47,040 --> 00:03:51,960
Blades goes economy and make us net zero before anyone else.

35
00:03:52,700 --> 00:03:57,160
Questions 3 and 4 are based on the news report you have just heard?

36
00:03:58,320 --> 00:03:59,300
Question 3.

37
00:03:59,740 --> 00:04:01,620
What do we learn from the news report?

38

00:04:16,600 --> 00:04:24,060
Question 4. What did Scottish powers chief executive say ahead of the all-energy conference?

39
00:04:39,000 --> 00:04:41,460
News Report 3.

40
00:04:42,000 --> 00:04:48,720
A Japanese IT firm has officially introduced an office cat policy to combat the stressful

41
00:04:48,720 --> 00:04:50,600
environment of the workplace.

42
00:04:51,800 --> 00:04:57,920
A total of nine furry friends freely wander around in the office and do whatever their

43
00:04:57,920 --> 00:04:59,240
little hearts desire.

44
00:04:59,240 --> 00:05:06,700
He did no boo Fukata, who heads the firm, introduced the pet policy upon request from one

45
00:05:06,700 --> 00:05:11,520
of his employees, allowing staff to bring their own cats to work.

46
00:05:12,540 --> 00:05:17,060
Employee Eriito is grateful for the animal's comforting ways.

47
00:05:17,900 --> 00:05:20,160
Cats are sleeping just beside us.

48
00:05:20,360 --> 00:05:22,100
It's healing, she said.

49
00:05:22,920 --> 00:05:28,340
Not only does Fukuda encourage bringing cats to the job, but he also encourages his

50
00:05:28,340 --> 00:05:33,140
employees to rescue cats from overpopulated shelters or streets.

51
00:05:34,240 --> 00:05:40,480
He gives 5,000 yen about 45 US dollars a month to those who rescue a cat.

52
00:05:41,540 --> 00:05:44,380
While the positives are many, there's still some obstacles.

53
00:05:45,720 --> 00:05:50,900
Sometimes a cat will walk on a phone and cut off the call, or they shut down the computers

54
00:05:50,900 --> 00:05:54,120
by walking onto the off switch, ethoses.

55
00:05:54,800 --> 00:05:59,220
Still, cats in the workplace have been a tremendous success for the company.

56
00:05:59,960 --> 00:06:03,920
The policy has led to various other companies doing the same.

57
00:06:04,840 --> 00:06:08,840
Questions 5-7 are based on the news report you have just heard.

58
00:06:09,620 --> 00:06:10,560
Question 5.

59
00:06:11,120 --> 00:06:14,560
What do we learn from the news report about the Japanese IT firm?

60
00:06:29,440 --> 00:06:35,100
Question 6. What does Fukuda encourage his employees to do?

61
00:06:48,520 --> 00:06:53,300
Question 7. What does the news reports say about the firm's policy?

Conversations (EN)

1
00:00:01,220 --> 00:00:16,520
Section B, Directions. In this section you will hear two long conversations. At the end of each conversation you will hear four questions. Both the conversation and the questions will be spoken only once.

2
00:00:16,520 --> 00:00:22,580
After you hear a question, you must choose the best answer from the four choices marked

3
00:00:22,580 --> 00:00:30,380
A, B, C, and D. Then mark the corresponding letter on answer sheet 1 with a single line

4
00:00:30,380 --> 00:00:34,060
through the center. Conversation 1

5
00:00:34,060 --> 00:00:36,260
Has Jibby been coming in lately?

6
00:00:36,880 --> 00:00:41,180
No, I haven't seen him around. Why has he been causing any trouble?

7
00:00:41,180 --> 00:00:47,560
Not that I know of, but I need to see him because my friends and I lent him some money last month,

8
00:00:47,940 --> 00:00:49,700
and we haven't heard from him since.

9
00:00:50,480 --> 00:00:55,300
I heard he comes here a lot, so I thought I'd come in and check with you.

10
00:00:55,920 --> 00:00:56,860
Well, that's funny.

11
00:00:57,280 --> 00:01:00,480
Some other fellow came in asking for Jimmy just yesterday.

12
00:01:01,060 --> 00:01:03,640
A real nervous, pushy type of fellow.

13
00:01:04,260 --> 00:01:07,920
Saying he needed Jimmy for some steady project they were working on.

14
00:01:07,920 --> 00:01:14,040
But I can't quite remember what it was all about. Is this a lot of money we're talking about here?

15
00:01:14,620 --> 00:01:20,920
No, just 60 pounds between the three of us, but still a bit too much to just let go.

16
00:01:21,540 --> 00:01:31,460
He told us he'd got into an accident. Nothing serious, mind you, but he damaged someone's car and wanted to get some money together to make up for the damage he'd caused.

17
00:01:31,460 --> 00:01:35,760
Hmm, isn't that sort of thing usually covered by insurance?

18
00:01:36,940 --> 00:01:42,360
And then if he still wanted to give money as some sort of apology or something, he probably

19
00:01:42,360 --> 00:01:45,460
shouldn't have to go around borrowing it from people.

20
00:01:45,940 --> 00:01:48,040
You think Jim is just making it all up?

21
00:01:48,540 --> 00:01:53,320
See, I did think it was a bit weird for him to be asking for money for that sort of thing,

22
00:01:53,740 --> 00:01:56,540
and his story was a bit vague to begin with.

23
00:01:56,540 --> 00:02:00,860
But I thought maybe he doesn't want his parents to know about what happened.

24
00:02:01,640 --> 00:02:04,160
So he'd rather come to us and keep things quiet.

25

00:02:04,780 --> 00:02:10,060
Anyway, Jimmy's a good guy, so we didn't make a fuss about it.

26
00:02:10,620 --> 00:02:14,720
Questions 8 to 11 are based on the conversation you have just heard?

27
00:02:15,540 --> 00:02:16,460
Question 8.

28
00:02:16,920 --> 00:02:18,560
What does the man want to do?

29
00:02:34,000 --> 00:02:38,620
Question 9. What do we learn about the man who came to see the woman yesterday?

30
00:02:53,839 --> 00:02:58,060
Question 10. What did Jimmy say happened to him one day?

31
00:03:13,180 --> 00:03:19,600
Question 11. Why did Jimmy borrow money according to the man?

32
00:03:41,940 --> 00:03:46,360
I've never done it before and I know that you've been doing it for ages.

33
00:03:46,980 --> 00:03:49,760
Sure, I love getting my shopping delivered.

34
00:03:50,360 --> 00:03:52,660
It makes life so much simpler.

35
00:03:53,280 --> 00:03:58,740
No carrying heavy shopping bags in the rain or trying to park the car in those huge supermarket

36
00:03:58,740 --> 00:03:59,620
car parks.

37
00:04:00,140 --> 00:04:03,280
Then not being able to find it again after you come out of the shops.

38
00:04:03,980 --> 00:04:05,560
But there must be some problems.

39
00:04:06,100 --> 00:04:08,980
I mean, how do you know that you won't get bad fruit?

40
00:04:09,320 --> 00:04:11,200
Or that the eggs won't be broken?

41
00:04:11,980 --> 00:04:13,180
Oh, come on.

42
00:04:13,180 --> 00:04:18,300
The food is exactly the same as the stuff you buy in a conventional shop.

43
00:04:18,779 --> 00:04:21,760
They aren't going to deliver you food that is out of date.

44
00:04:22,340 --> 00:04:27,180
And, if you get a broken egg, well, that could happen in a conventional shop too.

45
00:04:28,180 --> 00:04:29,940
If anything, it's really wrong.

46
00:04:30,280 --> 00:04:35,820
You can just take photographs of the damage and they will give you the money back or replace the item.

47
00:04:36,720 --> 00:04:41,460
How about delivery fees? Is it not more expensive to get everything delivered?

48
00:04:42,000 --> 00:04:48,000
I actually found that it was cheaper for me as I live quite far away from my local supermarket,

49
00:04:48,700 --> 00:04:52,580
so with the deliveries I'm actually saving on petrol.

50
00:04:53,080 --> 00:04:54,360
I never thought of that.

51
00:04:54,600 --> 00:04:58,280
If you aren't driving your own car, then you are saving on fuel.

52
00:04:58,900 --> 00:05:00,680
Right, you've convinced me.

53
00:05:01,080 --> 00:05:03,940
I'm going to go on the computer now and give it a try.

54
00:05:04,460 --> 00:05:07,740
So which supermarket do you think is the best to order from?

55
00:05:08,380 --> 00:05:10,560
Oh no, that's definitely up to you.

56
00:05:10,560 --> 00:05:13,060
Otherwise, will the hero day?

57
00:05:13,660 --> 00:05:18,060
Questions 12-15 are based on the conversation you have just heard.

58
00:05:18,960 --> 00:05:22,700
Question 12- What did the woman want to ask Max about?

59
00:05:37,659 --> 00:05:43,160
Question 13. What does the man think is a problem with shopping and supermarkets?

60
00:05:58,120 --> 00:06:03,360
Question 14. What is the woman's concern about shopping online?

61
00:06:18,160 --> 00:06:21,980
Question 15. What does the man find about

Passages (EN)

1
00:00:01,059 --> 00:00:15,380
Section C, directions. In this section you will hear three passages. At the end of each passage, you will hear three or four questions. Both the passage and the questions will be spoken only once.

2
00:00:15,840 --> 00:00:29,020
After you hear a question, you must choose the best answer. From the four choices marked A, B, C, and D, then mark the corresponding letter on answer sheet 1 with a single line through the center.

3
00:00:30,020 --> 00:00:37,400
Passage 1. A recent study found that 10% of British children suffer from math and anxiety.

4
00:00:37,820 --> 00:00:43,720
This means they have overwhelming negative emotions towards the subject, ranging from

5
00:00:43,720 --> 00:00:50,480
rage to despair. Other emotions triggered by math include feelings of tension and frustration.

6
00:00:51,420 --> 00:00:57,520
Physical symptoms include a racing heart or struggling to catch breath. The phenomenon

7
00:00:57,520 --> 00:01:03,560
of math anxiety, its characterised as a general sense of feeling that the subject is hard

8
00:01:03,560 --> 00:01:09,040
compared with other subjects, leading to a subsequent lack or loss of confidence.

9
00:01:10,060 --> 00:01:14,580
The researchers said they investigated individuals' attitudes towards mathematics

10
00:01:14,580 --> 00:01:20,560
because of what could be referred to as a mathematics crisis in the UK.

11
00:01:21,340 --> 00:01:27,100
There is a widespread misunderstanding that only low-performing children suffer from math anxiety.

12
00:01:27,520 --> 00:01:33,420

People automatically assume children are anxious about math because they are poor achievers.

13
00:01:34,240 --> 00:01:42,280
In fact, more than three quarters of children with high levels of math and anxiety are normal to high achievers.

14
00:01:43,360 --> 00:01:48,600
Probably their math and anxiety will go unnoticed because their performance is good.

15
00:01:49,300 --> 00:01:53,260
But, in the long term, their performance is negatively affected.

16
00:01:53,260 --> 00:02:00,200
So a real danger here is that children who are completely able to do math at a normal level

17
00:02:00,200 --> 00:02:03,120
may keep away from it because they feel anxious.

18
00:02:04,420 --> 00:02:09,840
Math and Zarty can severely disrupt students' performance in the subject in both primary

19
00:02:09,840 --> 00:02:11,440
and secondary school.

20
00:02:12,280 --> 00:02:18,320
But importantly, and surprisingly, this new study suggests that the majority of students

21
00:02:18,320 --> 00:02:23,980
Experiencing, math and zati have normal to high math ability.

22
00:02:24,880 --> 00:02:28,940
Question 16 to 18 are based on the passage you have just heard.

23
00:02:29,740 --> 00:02:34,460
Question 16 What did a recent study find about some British children?

24
00:02:49,040 --> 00:02:55,020
Question 17 What is the widespread misunderstanding about math anxiety?

25

00:03:10,119 --> 00:03:15,960
Question 18 What does the passage say about British students with math anxiety?

26
00:03:31,239 --> 00:03:36,980
Passage 2 People spend a lot of time using phones and computers.

27
00:03:38,460 --> 00:03:42,760
Much of that time is devoted to text messages and social media.

28
00:03:43,440 --> 00:03:47,120
But many people choose to spend their time playing computer games.

29
00:03:47,120 --> 00:03:53,140
For years, parents and teachers have worried that these games might be addictive.

30
00:03:54,200 --> 00:04:00,540
And now, the World Health Organization has recognized addiction to computer games as a disease.

31
00:04:02,000 --> 00:04:11,740
The organization explains that this decision reflects general agreement among experts around the world that some people have a problem with these games.

32
00:04:11,740 --> 00:04:16,380
They show a pattern of behavior characterized by a lack of control.

33
00:04:17,640 --> 00:04:22,120
Such people make computer games a priority over their responsibilities.

34
00:04:23,180 --> 00:04:28,500
They may play games instead of attending school or work or socializing.

35
00:04:29,740 --> 00:04:32,300
According to the World Health Organization experts,

36
00:04:32,940 --> 00:04:38,420
people's use of computer games is different from their use of the internet, social media,

37
00:04:38,840 --> 00:04:39,800
and online shopping.

38
00:04:39,800 --> 00:04:46,720
These experts claim there is not sufficient data to indicate that people's reliance on those

39
00:04:46,720 --> 00:04:48,800
other activities is an addiction.

40
00:04:50,060 --> 00:04:53,740
But they argue that playing computer games to access is different.

41
00:04:54,780 --> 00:04:56,700
This behavior can become a disorder.

42
00:04:57,940 --> 00:05:02,840
To meet the new definition for addiction, the behavior must damage a person's relationships

43
00:05:03,210 --> 00:05:05,860
or performance at school or work.

44
00:05:05,860 --> 00:05:09,120
And this must last for at least a year.

45
00:05:10,200 --> 00:05:12,820
Still, not all behavior experts agree.

46
00:05:13,680 --> 00:05:16,660
Some argue that there is not enough research on the subject.

47
00:05:17,720 --> 00:05:22,400
Thus, they claim it is too early to call computer game addiction a disorder.

48
00:05:23,320 --> 00:05:27,580
Questions 19-21 are based on the passage you have just heard.

49
00:05:28,580 --> 00:05:29,660
Question 19.

50
00:05:30,420 --> 00:05:34,100

What conclusion has the world health organization come to recently?

51
00:05:49,320 --> 00:05:54,620
Question 20. What is said of people with addictive behavior?

52
00:06:09,720 --> 00:06:16,560
Question 21. What do some behaviour experts think of addiction to computer games?

53
00:06:31,300 --> 00:06:39,120
Passage 3 Maybe you carry the most powerful passport in the world, or perhaps the rarest

54
00:06:39,120 --> 00:06:39,640
passport.

55
00:06:39,640 --> 00:06:49,260
Whatever the case, your passport will likely be one of four colours. Red, blue, green, or black.

56
00:06:49,840 --> 00:06:55,900
Although there are slight variations. Switzerland's passport is dark red, for example.

57
00:06:56,840 --> 00:07:05,340
While most European countries prefer a shade of red that's almost brown, there are no official rules regarding passport colours.

58
00:07:05,340 --> 00:07:10,420
But countries follow a certain set of norms when designing them.

59
00:07:11,120 --> 00:07:16,940
The International Civil Aviation Organization, which works to define the principles of air travel,

60
00:07:17,220 --> 00:07:23,340
suggests that countries use a suitable type, size and style for official documents like

61
00:07:23,340 --> 00:07:24,000
passports.

62
00:07:24,780 --> 00:07:28,700
There are also a few compulsory aspects of passports.

63
00:07:29,780 --> 00:07:32,820
They must be made from a material that bends.

64
00:07:32,820 --> 00:07:39,020
They should be able to be read by machine at temperatures ranging from 10 degrees Celsius

65
00:07:39,020 --> 00:07:46,340
to 50 degrees Celsius and conditions where the air can be extremely dry or moist.

66
00:07:47,540 --> 00:07:53,100
Despite these existing recommendations, there is nothing regarding the cover colour.

67
00:07:53,820 --> 00:07:54,040
Why?

68
00:07:54,880 --> 00:08:00,220
Simply put, countries stick to darker and more conservative colours because they appear

69
00:08:00,220 --> 00:08:01,160
more official.

70
00:08:01,160 --> 00:08:08,240
and they can also hide dirt and wear. While there's little innovation when it comes to passport

71
00:08:08,240 --> 00:08:15,120
cover colour, the saying cannot be said for the pages. The passports of many countries contain

72
00:08:15,120 --> 00:08:21,460
images of their well-known geographical features and wildlife, which also function as security

73
00:08:21,460 --> 00:08:25,740
features, as some are only visible under a special light.

74
00:08:25,740 --> 00:08:31,400
Questions 22-25 are based on the passage you have just heard.

75
00:08:32,100 --> 00:08:36,500
Question 22. What do we learn about most European passports?

76
00:08:51,580 --> 00:08:57,500
Question 23. What does the passage say about the design of passports?

77
00:09:12,780 --> 00:09:19,200
Question 24. Why are dark colors chosen for passport covers?

78
00:09:34,000 --> 00:09:41,220
Question 25. What is one special function of the images inside many passports?

79
00:09:56,660 --> 00:09:59,140
That's the end of listening comprehension.
