2020年12月四级真题第1套

年份 2020 | 月份 12 | 第 一 套 | 时长 125 分钟 | 满分 710（及格 425）

听力 (Listening)

Section A news

短新闻

🎧 听力音频：audio/SectionA.mp3（请使用离线包 papers 目录下对应 audio 文件夹播放）

1. **What is reported in the news?**

   A. Many people have been attacked by Devil Firefish.

   B. The Mediterranean is a natural habitat of Devil Firefish.

   C. Invasive species are driving away certain native species.

   D. A deadly fish has been spotted in the Mediterranean waters.

2. **What is the environmentalist concern about the spread of devil firefish in the Mediterranean?**

   A. It could badly pollute the surrounding waters.

   B. It could pose a threat to other marine species.

   C. It could disrupt the food chains there.

   D. It could add to greenhouse emissions.

3. **What will happen on World Car Free Day in Paris?**

   A. Cars will not be allowed to enter the city.

   B. Pedestrians will have free access to the city.

   C. About half of its city center will be closed to cars.

   D. Buses will be the only vehicles allowed on its streets.

4. **What motivated the mayor of Paris to promote the first World Car-Free Day in her city?**

   A. The unbearable traffic noise.

   B. The worsening global warming.

   C. The ever-growing cost of petrol.

   D. The rising air pollution in Paris.

5. **What happened to the Philippine fishermen one day?**

   A. His house was burnt down in a fire.

   B. Many of his possessions were stolen.

   C. His good luck charm sank into the sea.

   D. His fishing boat got wrecked on a rock.

6. **What was the fisherman forced to do?**

A. Change his fishing locations.

B. Find a job in a travel agency.

C. Sell the pearl he had kept for years.

D. Spend a few nights on a small island.

7. **What did the fishermen learn from the tourist agent?**

A. His pearl could be displayed in a museum.

B. His monstrous pearl was extremely valuable.

C. The largest pearl in the world weighs 14 pounds.

D. A New York museum has the world’ s biggest pearl.

Section B conversations

长对话

🎧 听力音频：audio/SectionB.mp3（请使用离线包 papers 目录下对应 audio 文件夹播放）

1. **What do we learn about the women's company?**

   A. It boasts a fairly long history.

   B. It has over 50 business partners.

   C. It has 75 offices around the world.

   D. It produces construction materials.

2. **What does the man say about his own company?**

   A. It was started by his father.

   B. It has about 50 employees.

   C. It is over 100 years old.

   D. It is a family business.

3. **What is the main problem with the man's company?**

   A. Outdated product design.

   B. Loss of competitive edge.

   C. Shortage of raw material supply.

   D. Legal disputes in many countries.

4. **What is the woman suggest doing to help them?**

   A. Introducing innovative marketing strategies.

   B. Seeking new ways to increase its exports.

   C. Providing training for its staff members.

   D. Conducting a financial analysis for it.

5. **What do we learn about the woman from the conversation?**

   A. She is a real expert at house decorations.

   B. She is really impressed by the man’ s house.

   C. She is well informed about the design business.

   D. She is attracted by the color of the sitting room.

6. **Where did the man get his ideas for the project?**

A. From a construction businessman.

B. From his younger brother Greg.

C. From home design magazines.

D. From a professional interior designer.

7. **What did the man say about the project he recently completed?**

A. The cost was affordable.

B. The style was fashionable.

C. The effort was worthwhile.

D. The effect was unexpected.

8. **Why does the woman invite the man to her house next week?**

A. She’ d like him to talk with Jonathan about a new project.

B. She’ d like to show him around her newly-renovated house.

C. She wants to discuss the house decoration budget with him.

D. She wants him to share his renovation experience with her.

Section C passages

听力篇章

🎧 听力音频：audio/SectionC.mp3（请使用离线包 papers 目录下对应 audio 文件夹播放）

1. **What does England spend an annual £3 million on?**

   A. Paying hospital bills for emergency cases.

   B. Doing research on ear, nose and throat diseases.

   C. Removing objects from patients’ noses and ears.

   D. Providing routine care for small children.

2. **What do we learn from England's hospital episodes statistics?**

   A. Children aged one to four are often more curious than older children.

   B. Five- to nine-year-olds are the most likely to put things in their ears.

   C. Many children like to put foreign objects in their mouths.

   D. Many children like to smell things they find or play with.

3. **What is generally believed to account for children putting things in their [noses and ears]?**

   A. They want to attract attention.

   B. They tend to act out of impulse.

   C. They are unaware of the potential risks.

   D. They are curious about these body parts.

4. **What did Rebicycle do to help Leyla Rahimi?**

   A. It gave her a used bicycle.

   B. It paid for her English lessons.

   C. It delivered her daily necessities.

   D. It provided her with physical therapy.

5. **What is rebiicycle doing to help those in need?**

   A. Expanding bike-riding lessons.

   B. Providing free public transport.

   C. Offering walking tours to visitors.

   D. Asking local people for donations.

6. **What do we learn from the passage about Rebicycle?**

A. It is a sports club.

B. It is a language school.

C. It is a counseling center.

D. It is a charity organization.

7. **What do NASA scientists want to learn about?**

A. How animals deal with lack of gravity.

B. How mice interact in a new environment.

C. How low gravity affects the human body.

D. How mice imitate human behavior in space.

8. **What does the passage say about the mice at the beginning of the experiment?**

A. They found the space in the cage too small to stay in.

B. They found it difficult to figure out where they were.

C. They were not used to the low-gravity environment.

D. They were not sensitive to the changed environment.

9. **What was observed about the mice on the 11th day of the experiment?**

A. They continued to behave as they did in the beginning.

B. They already felt at home in the new environment.

C. They had found a lot more activities to engage in.

D. They tried everything possible to escape from the cage.

10. **What did the scientists find about the mice from the experiment?**

A. They changed their routines in space.

B. They began to eat less after some time.

C. They behaved as if they were on Earth.

D. They repeated their activities every day.

阅读 (Reading)

Section A word_fill

选词填空

Trust is fundamental to life. If you can’ t trust anything, life becomes intolerable. You can’ t have relationships without trust, let alone good ones.
In the workplace, too, trust is __26__. An organization without trust will be full of fear and __27__. If you work for a boss who doesn’ t trust their employees to do things right, you’ ll have a __28__ time. They’ ll be checking up on you all the time, correcting “mistakes” and __29__ reminding you to do this or that. Colleagues who don’ t trust one another will need to spend more time __30__ their backs than doing any useful work.
Organizations are always trying to cut costs. Think of all the additional tasks caused by lack of trust. Audit (审计) departments only exist because of it. Companies keep large volumes of __31__ because they don’ t trust their suppliers, their contractors or their customers. Probably more than half of all administrative work is only there because of an ever-existing sense that “you can’ t trust anyone these days.” If even a small part of such valueless work could be __32__, the savings would run into millions of dollars.
All this is extra work we __33__ onto ourselves because we don’ t trust people—the checking, following through, doing things ourselves because we don’ t believe others will do them __34__—or at all. If we took all that away, how much extra time would we suddenly find in our life? How much of our work __35__ would disappear?

Word Bank:

- constantly
- credible
- essential
- exploring
- gather
- load
- miserable
- pressure
- properly
- records
- removed
- stacks
- suspicion
- tracked
- watching

听力原文 / Transcripts

News Transcript (EN)

1
00:00:00,000 --> 00:00:06,620
College English Test, Band 4, Part 2, Listening Comprehension

2
00:00:06,620 --> 00:00:09,680
Section A, Directions

3
00:00:09,680 --> 00:00:18,240
In this section you will hear three news reports. At the end of each news report you will hear two or three questions.

4
00:00:18,960 --> 00:00:26,820
Both the news report and the questions will be spoken only once. After you hear a question you must choose the best answer.

5
00:00:26,820 --> 00:00:31,320
From the four choices marked A, B, C, and D,

6
00:00:32,119 --> 00:00:34,760
then marked the corresponding letter on the answer sheet 1

7
00:00:34,760 --> 00:00:37,060
with a single line through the center.

8
00:00:38,320 --> 00:00:39,800
News report 1.

9
00:00:40,220 --> 00:00:44,240
A place-nose fish, which has a sting, strong enough to kill a human,

10
00:00:44,620 --> 00:00:47,240
is invading the Mediterranean, warm scientists.

11
00:00:48,600 --> 00:00:52,660
The International Union for the conservation of nature has raised concerns

12
00:00:52,660 --> 00:00:58,220

After the poisonous fish was spotted in the waters around Turkey, Cyprus and the East

13
00:00:58,220 --> 00:00:59,180
and Mediterranean.

14
00:01:00,380 --> 00:01:05,940
Naked to the South Pacific and Indian Ocean, the potentially deadly fish has poisonous

15
00:01:05,940 --> 00:01:09,920
hooks and a painful sting capable of killing people.

16
00:01:11,060 --> 00:01:16,960
Although fatalities are rare, the stings can cause extreme pain and stop people breathing.

17
00:01:16,960 --> 00:01:25,440
The fish often known as devil-far-fish is a highly invasive species, and environmentalist fear

18
00:01:25,440 --> 00:01:31,880
its arrival could endanger other types of marine life. After being spotted in the Mediterranean,

19
00:01:32,380 --> 00:01:37,780
a marine scientist says, the fish is spreading, and that's a cause for concern.

20
00:01:39,000 --> 00:01:43,240
Questions 1 and 2 are based on the news report you have just heard.

21
00:01:43,240 --> 00:01:47,760
Question 1. What is reported in the news?

22
00:02:02,440 --> 00:02:10,020
Question 2. What is the environmentalist concern about the spread of devil firefish in the Mediterranean?

23
00:02:25,260 --> 00:02:32,600
News Report 2 Almost half the center of Paris will be accessible only by foot or bicycle

24
00:02:32,600 --> 00:02:36,420
this Sunday to mark World Car Free Day.

25

00:02:37,200 --> 00:02:42,080
This is in response to rising air pollution that made Paris the most polluted city in the

26
00:02:42,080 --> 00:02:53,140
for a brief time. Mayor Anne Ivolgo promoted the first World Car Free Day last year. Ivolgo also has supported a

27
00:02:53,140 --> 00:03:01,060
Paris-Breeve Day. On the first Sunday of every month, Paris clears traffic from eight lanes of the main road.

28
00:03:02,280 --> 00:03:10,120
About 400 miles of streets will be closed to cars. It is expected to bring significant reduction in pollution levels.

29
00:03:11,220 --> 00:03:18,220
Last year's Car Free Day showed a 40% drop in pollution levels in some parts of the city,

30
00:03:18,700 --> 00:03:24,260
according to an independent air pollution monitor, reports the Guardian, and sound levels

31
00:03:24,260 --> 00:03:27,280
dropped by 50% in the city's center.

32
00:03:28,580 --> 00:03:33,040
Questions 3 and 4 are based on the news report you have just heard.

33
00:03:33,820 --> 00:03:34,940
Question 3.

34
00:03:35,440 --> 00:03:38,860
What will happen on World Car Free Day in Paris?

35
00:03:53,880 --> 00:04:00,580
Question 4. What motivated the mayor of Paris to promote the first World Car-Free Day in

36
00:04:00,580 --> 00:04:01,120
her city?

37
00:04:16,179 --> 00:04:23,180
News Report 3. A Philippine fisherman was feeling down on his luck when a house fire forced him

38
00:04:23,180 --> 00:04:29,620
to clear out his possessions and change locations. Then, a good luck charm that he had kept

39
00:04:29,620 --> 00:04:36,680
under his bed changed his life. The unidentified man had fished out a giant pearl from

40
00:04:36,680 --> 00:04:42,500
ocean when his anchor got stuck on the rock while sailing off a coastal island in the Philippines

41
00:04:42,500 --> 00:04:48,920
ten years ago. When he was forced to sell it, the shocked tourist agent at Puerto

42
00:04:48,920 --> 00:04:55,500
Prinsesca told him that the 77-pound giant pearl that he'd kept hidden in his rundown wooden

43
00:04:55,500 --> 00:05:01,680
house was the biggest pearl in the world, which was valued at 76 million pounds.

44
00:05:01,680 --> 00:05:07,780
The Pearl of Aller, which is currently on display in a New York museum, only weighs

45
00:05:07,780 --> 00:05:14,200
14 pounds. That is five times smaller than the Pearl that the fishermen just handed in.

46
00:05:14,880 --> 00:05:21,660
The monstrous Pearl measured at one foot wide and 2.2 feet long is going to be verified

47
00:05:21,660 --> 00:05:28,100
by local experts and international authorities before hopefully going on display to attract

48
00:05:28,100 --> 00:05:30,600
Mortarist in the little town.

49
00:05:31,500 --> 00:05:35,540
Questions 5-7 are based on the news report you have just heard.

50
00:05:36,140 --> 00:05:40,800
Question 5. What happened to the Philippine fishermen one day?

51
00:05:55,400 --> 00:06:00,000
Question 6. What was the fisherman forced to do?

52
00:06:14,940 --> 00:06:19,840
Question 7. What did the fishermen learn from the tourist agent?

Conversations (EN)

1
00:00:00,000 --> 00:00:11,580
Section B, Directions. In this section, you'll hear two long conversations. At the end of each conversation, you will hear four questions.

2
00:00:12,340 --> 00:00:16,180
Both the conversation and the questions will be spoken only once.

3
00:00:16,180 --> 00:00:22,340
After you hear a question, you must choose the best answer from the four choices marked

4
00:00:22,340 --> 00:00:30,020
A, B, C and D. Then mark the corresponding letter on answer sheet 1 with a single line

5
00:00:30,020 --> 00:00:30,940
through the center.

6
00:00:32,540 --> 00:00:33,740
Conversation 1.

7
00:00:34,080 --> 00:00:36,580
Mr Smith, it's a pleasure meeting you.

8
00:00:36,880 --> 00:00:38,220
Nice to meet you too.

9
00:00:38,520 --> 00:00:39,620
What can I do for you?

10
00:00:39,840 --> 00:00:43,200
Well, I'm here to show you what our firm can do for you.

11
00:00:43,200 --> 00:00:49,880
Astro Consultants has branches in over 50 countries, offering different business services.

12
00:00:50,820 --> 00:00:56,780
We are a global company with 75 years of history, and our clients include some of the world's

13
00:00:56,780 --> 00:00:57,940
largest companies.

14
00:00:58,840 --> 00:00:59,800
Thank you, Mrs. Houston.

15
00:01:00,180 --> 00:01:05,440
I know Astro Consultants is a famous company, but you said you would show me what you could

16
00:01:05,440 --> 00:01:06,220
do for me.

17
00:01:06,640 --> 00:01:10,580
Well, what exactly can your firm do for my company?

18
00:01:10,580 --> 00:01:16,680
We advise businesses on all matters from market analysis to legal issues.

19
00:01:17,140 --> 00:01:21,620
Anything a business like yours could need are firm offers expert advice.

20
00:01:22,420 --> 00:01:26,600
Could I ask you, Mr. Smith, to tell me a little about your company and the challenges

21
00:01:26,600 --> 00:01:27,480
you face?

22
00:01:27,920 --> 00:01:30,840
That way, I could better respond as to how we can help you.

23
00:01:31,360 --> 00:01:32,120
OK, sure.

24
00:01:32,600 --> 00:01:36,720
This is a family business started by my grandfather in 1950.

25
00:01:36,720 --> 00:01:44,720

We employ just over 100 people. We manufacture and export stone for buildings and other constructions.

26
00:01:45,660 --> 00:01:50,460
Our clients usually want a special kind of stone cut in a special design.

27
00:01:51,020 --> 00:01:57,140
And that's what we do in our factory. Our main challenge is that our national currency is rising

28
00:01:57,140 --> 00:02:01,240
and we're losing competitive advantage to stone producers in India.

29
00:02:01,240 --> 00:02:03,580
I see, that's very interesting.

30
00:02:04,420 --> 00:02:08,860
I would suggest that you let us first conduct a financial analysis of your company,

31
00:02:09,360 --> 00:02:12,220
together with an analysis of your competitors in India.

32
00:02:12,980 --> 00:02:17,060
That way we could offer the best advice on different ways forward for you.

33
00:02:17,720 --> 00:02:21,840
Questions 8 to 11 are based on the conversation you have just heard.

34
00:02:22,880 --> 00:02:26,220
Question 8, what do we learn about the woman's company?

35
00:02:41,200 --> 00:02:45,700
Question 9. What does the man say about his own company?

36
00:03:00,799 --> 00:03:05,560
Question 10. What is the main problem with the man's company?

37
00:03:20,620 --> 00:03:26,040
Question 11. What is the woman suggest doing to help the man's company?

38

00:03:43,360 --> 00:03:49,720
Wow, congratulations Simon. The place looks absolutely amazing. Really? You think so?

39
00:03:50,020 --> 00:03:55,260
Of course, I love it. It looks like you had a professional interior designer, but you

40
00:03:55,260 --> 00:04:01,860
didn't did you? No, I did it all by myself, with a little help from my brother Greg.

41
00:04:02,360 --> 00:04:05,760
He's actually in the construction business, which was really helpful.

42
00:04:06,480 --> 00:04:11,940
I honestly am impressed. I know I could probably repaint the walls in my house over a weekend

43
00:04:11,940 --> 00:04:18,000
or something, but not a full renovation. Where did you get your ideas? I wouldn't know where

44
00:04:18,000 --> 00:04:23,780
to start. Well, for a while now, I've been regularly buying home design magazines.

45
00:04:23,780 --> 00:04:27,500
Everyone, every now and then, at save a picture I liked.

46
00:04:28,180 --> 00:04:32,060
Believe it or not, I had a full notebook of magazine pages.

47
00:04:33,040 --> 00:04:39,340
Since my overall style was quite minimal, I thought, and hoped a whole renovation wouldn't

48
00:04:39,340 --> 00:04:44,400
be too difficult, and sure enough, with Greg's help, it was very achievable.

49
00:04:44,940 --> 00:04:46,080
Was it very expensive?

50
00:04:46,680 --> 00:04:48,960
I imagine a project like this could be.

51
00:04:49,440 --> 00:04:51,740
Actually, it was surprisingly affordable.

52
00:04:52,260 --> 00:04:58,900
I managed to sell a lot of my old furniture and put that extra money towards the new material.

53
00:04:59,600 --> 00:05:05,360
Greg was also able to get some discount of materials from a recent project he was working on as well.

54
00:05:05,920 --> 00:05:09,200
Great. If you don't mind, I'd like to pick your brain a bit more.

55
00:05:09,640 --> 00:05:15,100
Jonathan and I are thinking of renovating our sitting room. Not the whole house, not yet anyway.

56
00:05:15,580 --> 00:05:17,910
And we'd love to get some inspiration from your experience.

57
00:05:18,710 --> 00:05:21,990
Are you free to come over for a coffee early next week?

58
00:05:48,390 --> 00:05:54,150
Question 13 Where did the man get his ideas for the project?

59
00:06:08,990 --> 00:06:15,670
Question 14. What did the man say about the project he recently completed?

60
00:06:31,090 --> 00:06:35,970
Question 15. Why does the woman invite the man to her house next?

Passages (EN)

1
00:00:00,000 --> 00:00:11,640
Section C. Directions. In this section, you'll hear three passages. At the end of each passage, you'll hear three or four questions.

2
00:00:12,340 --> 00:00:24,840
Both the passage and the questions will be spoken only once. After you hear a question, you must choose the best answer from the four choices marked A, B, C and D.

3
00:00:24,840 --> 00:00:30,960
Then lock the corresponding letter on Answersheet 1 with a single line through the center.

4
00:00:31,900 --> 00:00:42,140
Passage 1 Removing for an object from ears and noses costs England almost £3 million a year, a steady suggest.

5
00:00:43,720 --> 00:00:53,480
Children were responsible for the vast majority of cases, 95% of objects removed from noses, and 85% from ears.

6
00:00:53,480 --> 00:01:08,100
Every year, an average of 1,218 nos and 2,479 ear removals took place between 2010 and 2016.

7
00:01:09,840 --> 00:01:19,920
According to England's hospital episodes statistics, children aged 1 to 4 were the most likely to need help from doctors for a foreign object in their nose.

8
00:01:19,920 --> 00:01:25,520
5 to 9 year olds come to the hospital with something in their ears the most.

9
00:01:26,160 --> 00:01:31,620
Jewelry items accounted for up to 40% of cases in both the ears and noses of children.

10
00:01:32,720 --> 00:01:37,140
Paper and plastic toys were the items removed next most from noses.

11
00:01:37,920 --> 00:01:41,060
Cotton beds and pencils were also found in ears.

12

00:01:42,340 --> 00:01:47,440
According to the study, the occurrence of foreign objects in children is generally attributed

13
00:01:47,440 --> 00:01:48,300
to curiosity.

14
00:01:49,000 --> 00:01:52,840
Children have an impulse to explore their noses and ears.

15
00:01:53,700 --> 00:01:56,660
This results in the accidental entry of foreign objects.

16
00:01:57,900 --> 00:02:03,660
Any ear, nose, and throat surgeon, has many weird stories about wonderful objects found

17
00:02:03,660 --> 00:02:06,400
in the noses and ears of children and adults.

18
00:02:07,620 --> 00:02:09,680
Batteries can pose a particular danger.

19
00:02:10,840 --> 00:02:13,600
In all cases, prevention is better than cure.

20
00:02:13,600 --> 00:02:20,880
This is why many toys contain warnings about small parts. Recognizing problems early

21
00:02:20,880 --> 00:02:23,860
and seeking medical attention is important.

22
00:02:24,940 --> 00:02:29,900
Question 16-18 A based on the passage you have just heard.

23
00:02:30,880 --> 00:02:36,520
Question 16 What does England spend an annual £3 million on?

24
00:02:51,140 --> 00:02:57,320
Question 17. What do we learn from England's hospital episodes statistics?

25
00:03:12,780 --> 00:03:26,980
Question 18. What is generally believed to account for children putting things in their

26
00:03:35,220 --> 00:03:43,380
Passage 2. Good morning. Today I would like to talk to you about my charity Rebicycle,

27
00:03:43,980 --> 00:03:52,580
but before that let me introduce someone. This is Layla Rahini. She was so scared when

28
00:03:52,580 --> 00:03:57,920
she first moved to New Zealand that she struggled to leave the house and would spend

29
00:03:57,920 --> 00:04:03,040
days working up the courage to walk to the supermarket for basic supplies.

30
00:04:04,380 --> 00:04:10,800
After a few months have been quite down and unhappy, she was invited to join a local bike

31
00:04:10,800 --> 00:04:17,500
club. At this time, Rebicycle got involved and gave Layla a second hand bicycle.

32
00:04:17,500 --> 00:04:22,480
her. Within weeks, her depression had begun to ease as she's

33
00:04:22,480 --> 00:04:29,440
psychalled. The bicycle totally changed her life, giving her hope and a true feeling

34
00:04:29,440 --> 00:04:35,820
of freedom. To date, Rebicycle has donated more than 200 bikes to those

35
00:04:35,820 --> 00:04:40,460
need, and is now expanding bike riding lessons as demand

36
00:04:40,460 --> 00:04:48,640
source. With a bike newcomers here can travel farther but for almost no cost. The three hours

37
00:04:48,640 --> 00:04:54,800
a day that used to spend walking two and from English language lessons has been reduced to just

38
00:04:54,800 --> 00:05:01,920
one hour. Our bike riding lessons are so successful that we are urgently looking for more

39
00:05:01,920 --> 00:05:09,820
volunteers. Learning to ride a bike is almost always more difficult for an adult and this can take

40
00:05:09,820 --> 00:05:17,920
days and weeks rather than hours. So, if any of you have some free time during the weekend,

41
00:05:18,520 --> 00:05:23,460
please come join us at ReBicycle and make a difference in someone's life.

42
00:05:24,420 --> 00:05:28,760
Questions 19 to 21 are based on the passage you have just heard.

43
00:05:29,920 --> 00:05:35,140
Question 19. What did ReBicycle do to help Leyla Rahimi?

44
00:05:50,240 --> 00:05:55,500
Question 20. What is rebiicycle doing to help those in need?

45
00:06:10,320 --> 00:06:16,200
Question 21. What do we learn from the passage about Rebicycle?

46
00:06:31,220 --> 00:06:35,860
Passage 3. Thanks to the International Space Station,

47
00:06:35,860 --> 00:06:43,900
We know quite a bit about the effects of low gravity on the human body, but NASA scientists want to learn more.

48
00:06:44,660 --> 00:06:51,820
To that end, they have been studying how other species deal with low gravity, specifically focusing on mice.

49
00:06:52,660 --> 00:06:56,120
The results are both interesting and humorous.

50
00:06:57,160 --> 00:07:03,700

The scientists first sent some mice and especially designed cage to the international space station.

51
00:07:04,380 --> 00:07:10,300
The cage allowed them to study the behavior of the mice remotely from Earth via video.

52
00:07:11,560 --> 00:07:16,900
As you'll notice in the video, the mice definitely seem uncomfortable at the beginning of the experiment.

53
00:07:17,640 --> 00:07:27,020
They move around clumsily, drifting within the small confines of the cage, and do their best to figure out which way is up, but without success.

54
00:07:27,820 --> 00:07:31,240
However, it's not long before the mice begin to catch on.

55
00:07:31,240 --> 00:07:40,120
They adapt remarkably well to their new environment, and even use the lack of gravity to their advantage, as they push themselves around the cage.

56
00:07:41,440 --> 00:07:43,180
That's when things really get wild.

57
00:07:44,020 --> 00:07:52,080
The 11th day of the experiment shows the mice are not just dealing with the gravity change, but actually seem to be enjoying it.

58
00:07:52,720 --> 00:07:55,960
Several of the mice are observed running around the cage walls.

59
00:07:56,680 --> 00:08:01,720
The scientists wanted to see whether the mice would continue doing the same kinds of activities

60
00:08:01,720 --> 00:08:07,380
they were observed doing on Earth. The study showed that the mice kept much of the routines

61
00:08:07,380 --> 00:08:12,000
intact, including cleaning themselves and eating win hungry.

62
00:08:13,380 --> 00:08:19,620

Questions 22-25 are based on the passage you have just heard. Question 22.

63
00:08:20,740 --> 00:08:23,760
What do NASA scientists want to learn about?

64
00:08:38,720 --> 00:08:45,060
Question 23. What does the passage say about the mice at the beginning of the experiment?

65
00:09:00,320 --> 00:09:07,260
Question 24. What was observed about the mice on the 11th day of the experiment?

66
00:09:22,140 --> 00:09:25,940
Question 25. What did the scientists find in the

67
00:09:25,940 --> 00:09:28,240
about the mice from the experiment.

68
00:09:43,240 --> 00:09:45,640
That's the end of listening comprehension.
