When Toni Morrison died in 2019, the world lost one of its most influential authors. But Morrison was not an early success. Her first novel was not published until she was 39, and her last appeared when she was 84. And Morrison was not __26__ in this regard. Numerous writers produce masterpieces well into their 70s and beyond. Such __27__ accomplishments highlight an important point. Our capacity to speak, write and learn new vocabulary does not seem to __28__ with age. Our eyesight may dim and our recall may weaken, but by comparison, our ability to produce and to __29__ language is well preserved into older adulthood.

Indeed, the latest research that has emerged on language and aging shows that language mastery is a __30__ that we begin as infants and continue on for the rest of our lives. Some aspects of our language abilities, such as our knowledge of word meanings, __31__ improve during middle and late adulthood. One study, for example, found that adults over sixty had an average vocabulary size of over 21,000 words. The researchers also studied a __32__ of college students and found that their average vocabulary contained __33__ 16,000 words. In another study, older adults, with an average age of 75, __34__ better than participants in their youth or middle years on tasks that required them to determine the meaning of words. Thus, language seems to be a skill that, contrary to what many might __35__, does not weaken with age.

1
00:00:00,000 --> 00:00:08,380
College English Test Band 4, Part 2, Listening Comprehension, Section A, Directions.

2
00:00:09,000 --> 00:00:16,200
In this section, you'll hear 3 news reports. At the end of each news report, you'll hear 2 or 3 questions.

3
00:00:17,200 --> 00:00:29,560
Both the news reports and the questions will be spoken only once. After you hear a question, you must choose the best answer from the 4 choices marked A, B, C and D.

4
00:00:29,560 --> 00:00:35,840
Then mark the corresponding letter on answer sheet 1 with a single line through the center.

5
00:00:37,280 --> 00:00:43,660
News report 1. The city of Fayetteville is making a special effort to recognize its best

6
00:00:43,660 --> 00:00:49,880
drivers. A head of the newly proclaimed Transit Driver Appreciation Day, happening Saturday.

7
00:00:50,640 --> 00:00:55,820
As part of the event, the city is celebrating its longest serving driver on the force.

8
00:00:55,820 --> 00:00:58,380
That driver is Sherry Christian.

9
00:00:59,320 --> 00:01:02,160
Christian has been a driver for 25 years.

10
00:01:02,640 --> 00:01:08,180
The Fayetteville native believes driving a school bus allows her to give back to her community.

11
00:01:08,860 --> 00:01:14,260
She says that the best part of the job is watching the children who ride her bus grow up.

12
00:01:15,040 --> 00:01:20,580
Transit driver appreciation day has been celebrated across the country as far back as

13
00:01:20,580 --> 00:01:21,400
2009.

14
00:01:21,400 --> 00:01:28,360
However, this week, the City of Fayetteville issued a proclamation for the day to take place

15
00:01:28,360 --> 00:01:30,120
March 18th.

16
00:01:30,360 --> 00:01:35,560
Officials said they want bus drivers to know how important they are to Fayetteville, serving

17
00:01:35,560 --> 00:01:39,180
almost 1.6 million riders a year.

18
00:01:39,580 --> 00:01:43,660
Questions 1 and 2 are based on the news report you have just heard.

19
00:01:44,400 --> 00:01:45,380
Question 1.

20
00:01:45,840 --> 00:01:48,360
What do we learn about Sherry Christian?

21
00:02:03,260 --> 00:02:09,800
Question 2. What did City officials of Fayetteville want bus drivers to be aware of?

22
00:02:24,440 --> 00:02:32,880
News Report 2 The Wilton School Board has proposed a 5.99% spending increase.

23
00:02:33,360 --> 00:02:38,000
If approved, it would be the largest jump in at least 8 budget cycles.

24
00:02:38,840 --> 00:02:46,440
The 5.99% request more than doubles the highest previous year over year increase in

25
00:02:46,440 --> 00:02:58,480

last eight years, which was 2.99% for the 2021-22 school year. The biggest driver of the 91.8

26
00:02:58,480 --> 00:03:06,140
million dollar proposed budget remains teachers salaries. These account for 64% of the total

27
00:03:06,140 --> 00:03:15,680
request at $59 million. The $59 million is up from the 56.7 million budgeted for the current

28
00:03:15,680 --> 00:03:21,940
school year. There are some factors that could affect the budget moving forward. One of those

29
00:03:21,940 --> 00:03:31,180
is total enrollment. The district will have a total enrollment of 3,742 students. Almost all of these

30
00:03:31,180 --> 00:03:37,600
students will be in kindergarten through high school, but 66 will be in pre-kind of garden and

31
00:03:37,600 --> 00:03:45,740
programs. This represents 47 fewer students than the current year. Fewer students

32
00:03:45,740 --> 00:03:52,700
mean less federal and state funding. Questions 3 and 4 are based on the news report

33
00:03:52,700 --> 00:03:59,080
you have just heard. Question 3. What does the news report say the Wilton School Board

34
00:03:59,080 --> 00:03:59,780
has done?

35
00:04:14,560 --> 00:04:22,600
Question 4. What will a decline in the total enrollment lead to?

36
00:04:34,880 --> 00:04:37,000
News Report 3.

37
00:04:37,620 --> 00:04:44,220
A rare thunder snow event has taken place in Scotland and alarmed locals contacted police

38

00:04:44,220 --> 00:04:47,380
thinking they had heard bombs going off.

39
00:04:47,380 --> 00:04:53,420
The phenomenon happens when thunder and lightning mix with a heavy snowstorm.

40
00:04:53,700 --> 00:04:58,360
Sometimes causing loud claps that can be confused with explosions.

41
00:04:59,800 --> 00:05:04,060
One person described it as a loud boom, similar to a plain crash.

42
00:05:04,740 --> 00:05:10,720
Another person was woken up in the middle of the night by what he thought was early construction work starting.

43
00:05:11,440 --> 00:05:16,120
The noise was powerful enough to shake buildings and set off car alarms.

44
00:05:16,120 --> 00:05:22,500
The police were flooded with many calls from the public, and they sent out a message asking

45
00:05:22,500 --> 00:05:24,040
people to remain calm.

46
00:05:24,660 --> 00:05:30,140
The police assured everyone that it was just thunder and lightning, rather than some military

47
00:05:30,140 --> 00:05:30,820
exercise.

48
00:05:31,980 --> 00:05:37,100
The weather was the coldest it had been for the season, so people were warned to be careful

49
00:05:37,100 --> 00:05:38,380
when traveling outside.

50
00:05:39,020 --> 00:05:45,380
In particular, dangerous conditions such as icy roads or wet ground could cause difficulty

51
00:05:45,380 --> 00:05:52,280
for drivers. The rail service also announced potential disruptions to trains due to the deep

52
00:05:52,280 --> 00:05:56,860
snow. Some roads were also closed because of the severe weather.

53
00:05:57,620 --> 00:06:01,780
Questions 5-7 are based on the news report you have just heard.

54
00:06:02,400 --> 00:06:07,400
Question 5. Want to we learn about thunderstorms from the report?

55
00:06:22,300 --> 00:06:28,520
Question 6. What did the police do when they received the local residents' phone calls?

56
00:06:43,200 --> 00:06:48,420
Question 7. What were people advised to do when traveling outside?

Conversations (EN)

1
00:00:01,359 --> 00:00:15,260
Section B, Directions. In this section you'll hear two long conversations. At the end of each conversation, you'll hear four questions. Both the conversation and the questions will be spoken only once.

2
00:00:15,720 --> 00:00:28,820
After you hear a question, you must choose the best answer from the four choices marked A, B, C, and D. Then mark the corresponding letter on answer sheet 1 with a single line through the center.

3
00:00:30,740 --> 00:00:31,940
Conversation 1

4
00:00:31,940 --> 00:00:35,120
I'm going to the city centre to buy a new phone today

5
00:00:35,120 --> 00:00:38,100
Didn't you buy a new phone just two months ago?

6
00:00:38,700 --> 00:00:42,240
It was three months ago and I already know what you're going to say

7
00:00:42,240 --> 00:00:45,220
You're thinking I shouldn't replace my phone this soon

8
00:00:45,600 --> 00:00:50,060
No, actually I was wondering how you could possibly afford a new phone

9
00:00:50,060 --> 00:00:55,260
But now that you mention it, I do think getting another phone so soon is wasteful

10
00:00:55,680 --> 00:00:57,160
Regardless of the cost

11
00:00:57,160 --> 00:01:02,760
Maybe you're right, but the thing is, everyone at the office has a nice, expensive phone,

12
00:01:03,140 --> 00:01:05,260

and I'm a little embarrassed by mine.

13
00:01:05,620 --> 00:01:10,120
I just got a credit card, so I thought I might as well buy a new phone.

14
00:01:10,680 --> 00:01:13,700
I don't think buying a phone on credit is a good idea.

15
00:01:14,240 --> 00:01:16,880
Look, you've only been working for five months now.

16
00:01:17,120 --> 00:01:19,820
People understand that you are a recent graduate,

17
00:01:20,200 --> 00:01:23,740
and I doubt anyone cares about your phone other than yourself.

18
00:01:23,740 --> 00:01:29,840
Maybe you're right, but the credit card has a very good special offer, where I don't pay

19
00:01:29,840 --> 00:01:35,680
any interest for six months. I'll be able to pay for the phone well before that period

20
00:01:35,680 --> 00:01:36,420
is over.

21
00:01:36,820 --> 00:01:42,100
I still think it's a bad idea to use a credit card for something you don't need. One of my

22
00:01:42,100 --> 00:01:46,820
colleagues bought a lot of things on credit. During her first year of work, and it became

23
00:01:46,820 --> 00:01:50,280
a bad habit, and she accumulated a lot of debt.

24
00:01:50,280 --> 00:01:56,900
Well, I can see how that might happen to someone, and I'm sure she regrets it, but

25

00:01:56,900 --> 00:01:59,540
I know it won't happen to me."

26
00:01:59,540 --> 00:02:03,760
Questions 8-11 are based on the conversation you have just heard.

27
00:02:04,500 --> 00:02:08,979
Question 8- What does the woman say she was actually wondering about?

28
00:02:24,359 --> 00:02:30,400
Question 9. Why is the man a little embarrassed by the phone he's using now?

29
00:02:44,940 --> 00:02:49,700
Question 10. What does the man say about the credit card he just got?

30
00:03:04,760 --> 00:03:09,400
Question 11. What do we learn about one of the woman's colleagues?

31
00:03:25,420 --> 00:03:32,480
Conversation 2 Welcome to the Morning Show. Our guest today is a popular blog writer and a major

32
00:03:32,480 --> 00:03:40,240
figure in the tiny home community. Welcome Bob Jones. Hi, Mary. Hi Bob. You're an advocate

33
00:03:40,240 --> 00:03:45,920
of the tiny home movement. A lot of people don't know about this movement. Can you tell

34
00:03:45,920 --> 00:03:47,840
audience, what it's about?

35
00:03:48,380 --> 00:03:53,700
Well, it's mainly about increasing home ownership and protecting the environment.

36
00:03:54,340 --> 00:03:59,800
Of course, those are great goals, but I've seen your blog and you write about houses that

37
00:03:59,800 --> 00:04:02,260
are as small as 20 square meters.

38
00:04:02,900 --> 00:04:05,460
That's not a realistic size for families.

39
00:04:06,300 --> 00:04:12,600
I do talk about very small homes, but there's no set definition of a tiny home.

40
00:04:12,600 --> 00:04:17,880
and other people include homes that are much larger, say 60 square meters.

41
00:04:18,339 --> 00:04:25,560
And you'd be surprised. Many families of four are happy living houses that are under 30 square meters.

42
00:04:26,360 --> 00:04:34,100
But I think most of us want spacious homes. The average new house in this area is 150 square meters,

43
00:04:34,540 --> 00:04:36,480
and that's what people dream of owning.

44
00:04:37,260 --> 00:04:40,440
Yes, but I think that dream needs to change.

45
00:04:40,440 --> 00:04:42,940
Considering the cost of housing.

46
00:04:43,140 --> 00:04:48,600
Housing costs are high, but do people really save that much by having a smaller home?

47
00:04:48,960 --> 00:04:56,480
Absolutely. Many people who can only afford to rent a larger home are able to buy a tiny home.

48
00:04:57,100 --> 00:05:00,800
In this city, the average home costs $200,000.

49
00:05:01,640 --> 00:05:05,380
And a tiny home costs just $50,000.

50
00:05:05,960 --> 00:05:07,460
Those are huge savings.

51
00:05:07,460 --> 00:05:14,260
So, tiny homes might not be for everyone, but there are good options for many.

52
00:05:14,580 --> 00:05:16,700
You mentioned the environment earlier.

53
00:05:17,160 --> 00:05:18,960
How does this benefit the planet?

54
00:05:19,660 --> 00:05:25,960
Well, if people have smaller homes, they use less land and fewer resources to build them.

55
00:05:26,660 --> 00:05:31,160
Questions 12-15 are based on the conversation you have just heard.

56
00:05:31,660 --> 00:05:32,540
Question 12.

57
00:05:32,540 --> 00:05:36,340
What does the tiny home movement mainly advocate?

58
00:05:51,660 --> 00:05:57,740
Question 13. What does the woman say about houses a small as 20 square meters?

59
00:06:12,780 --> 00:06:20,280
Question 14. What does the man think about the dream of owning a 150 square meter house?

60
00:06:35,359 --> 00:06:38,980
Question 15. What does the man say about Tiny Huff?

Passages (EN)

1
00:00:01,579 --> 00:00:15,220
Section C, directions. In this section you will hear three passages. At the end of each passage, you will hear three or four questions, both the passage and the questions will be spoken only once.

2
00:00:15,760 --> 00:00:28,720
After you hear a question, you must choose the best answer from the four choices marked A, B, C and D. Then mark the corresponding letter on answer sheet 1 with a single line through the center.

3
00:00:30,000 --> 00:00:37,380
passage one. Kids need time every day to run, jump, stretch and play. These experiences

4
00:00:37,380 --> 00:00:43,420
have been shown to build children's confidence and pleasure in physical activities, develop their

5
00:00:43,420 --> 00:00:50,600
motor skills and even improve emotional well-being. To begin with, children seem to have a natural

6
00:00:50,600 --> 00:00:57,560
desire to overcome challenges and take risks. Taking healthy risks through physical movement

7
00:00:57,560 --> 00:01:03,860
built children's confidence and ability to solve problems and persist through frustration.

8
00:01:05,239 --> 00:01:12,640
Secondly, movement activities build children's big body skills, such as coordination and balance,

9
00:01:13,100 --> 00:01:18,700
as well as the fine motor skills they need for tasks like writing, tying their shoes,

10
00:01:18,980 --> 00:01:25,540
or throwing and catching a ball. Thirdly, according to the American Psychological Association,

11
00:01:25,540 --> 00:01:32,020
regular physical activity and especially outdoor activity reduces children's stress and

12
00:01:32,020 --> 00:01:38,120

depression and improves their ability to focus and learn. Regular exercise can

13
00:01:38,120 --> 00:01:43,760
significantly improve self-regulation and decrease disciplinary consequences

14
00:01:43,760 --> 00:01:49,400
for negative behavior. Physical activity provides a positive outlet for

15
00:01:49,400 --> 00:01:55,420
frustration, anxiety, anger and can become a healthy coping skill throughout

16
00:01:55,420 --> 00:02:02,340
life. Finally, we know that physical activity is important for our physical and mental health

17
00:02:02,340 --> 00:02:09,199
and cultivating the habit of physical activity starts early. Children are more likely to develop

18
00:02:09,199 --> 00:02:17,340
a lifelong love of physical activity from frequent positive early experiences. Not every child

19
00:02:17,340 --> 00:02:23,260
enjoys competitive sports or playing with balls and that's okay. There are plenty of

20
00:02:23,260 --> 00:02:31,500
options, such as imaginative play, non-competitive games, and gardening or nature experiences.

21
00:02:32,740 --> 00:02:37,100
Questions 16 to 18 are based on the passage you have just heard.

22
00:02:37,620 --> 00:02:42,940
Question 16. What do children seem to have a natural desire to do?

23
00:02:57,600 --> 00:03:05,460
Question 17. According to the American Psychological Association, what does regular physical activity

24
00:03:05,460 --> 00:03:06,840
do to children?

25

00:03:21,820 --> 00:03:27,960
Question 18. What does the passage say about cultivating the habit of physical activity?

26
00:03:43,459 --> 00:03:50,900
Passage 2. A new study finds that job seekers are even willing to explore jobs with lower

27
00:03:50,900 --> 00:03:57,100
salaries when companies are more diverse. It finds that sharing information about diversity

28
00:03:57,100 --> 00:04:04,360
makes job postings more attractive to job seekers even when pay is lower. To conduct

29
00:04:04,360 --> 00:04:10,880
The team partnered with an online job listings platform, which emails postings relevant

30
00:04:10,880 --> 00:04:13,660
to individuals and their job search criteria.

31
00:04:14,320 --> 00:04:21,360
For the course of the 11 week study, the platform emailed job listings to some 180,000

32
00:04:21,360 --> 00:04:24,380
users placed in one of two conditions.

33
00:04:25,280 --> 00:04:31,240
In the baseline condition, participants saw emails in the normal format with no information

34
00:04:31,240 --> 00:04:32,200
on diversity.

35
00:04:32,200 --> 00:04:38,240
In the Diversity condition, participants saw a diversity score for each listing.

36
00:04:39,040 --> 00:04:45,040
Information about the race, gender, education, and language skills of a company's workforce.

37
00:04:45,860 --> 00:04:48,460
Compared to others in the same sector and location.

38
00:04:49,320 --> 00:04:54,900
Information was then gathered on whether the email was opened and which job listings were

39
00:04:54,900 --> 00:04:56,620
clicked on by each user.

40
00:04:57,480 --> 00:05:07,360
Participants in the Diversity condition tended to click on job listings from companies with slightly higher diversity scores than those in the baseline condition.

41
00:05:08,020 --> 00:05:17,040
That is, participants seem to be paying attention to information about diversity and using this when deciding whether to click on the listing.

42
00:05:17,040 --> 00:05:22,880
And the team also found that participants were willing to look at listings with lower salaries

43
00:05:22,880 --> 00:05:27,060
if they came from companies with a higher diversity score.

44
00:05:27,940 --> 00:05:33,060
Questions 19-21 are based on the passage you have just heard.

45
00:05:33,740 --> 00:05:41,180
Question 19- When are job seekers willing to explore jobs with lower salaries according to a new study?

46
00:05:55,780 --> 00:06:02,540
Question 20. What did participants see in the baseline condition of the study?

47
00:06:17,040 --> 00:06:24,040
Question 21. What does the passage say participant seem to be paying attention to?

48
00:06:39,200 --> 00:06:46,060
Passage 3 A new study from Oregon State University found that dogs tend to match their

49
00:06:46,060 --> 00:06:48,720
behavior with the children in their family.

50

00:06:48,720 --> 00:06:56,520
The findings are important because there is a growing body of evidence that dogs can help children in many ways.

51
00:06:56,980 --> 00:07:09,640
These include helping with social development, increasing physical activity, managing anxiety, or serving as a source of attachment in the face of changing family structures.

52
00:07:10,340 --> 00:07:16,780
Yet very little research has focused on how dogs perceive and socially engaged with children.

53
00:07:16,780 --> 00:07:22,800
The great news is that this study suggests dogs are paying a lot of attention to the

54
00:07:22,800 --> 00:07:28,340
kids that they live with, said Monique Udell, the lead author of the study.

55
00:07:29,060 --> 00:07:34,060
One interesting thing we have observed is that dogs are matching children's behaviour,

56
00:07:34,520 --> 00:07:39,440
but less frequently than what we have seen between dogs and adults.

57
00:07:40,260 --> 00:07:46,080
This suggests that while dogs may view children as social companions, there are also some

58
00:07:46,080 --> 00:07:52,080
differences that we need to understand better. While research has found dogs can have a lot

59
00:07:52,080 --> 00:07:58,240
of positive impacts on a child's life, there are also risks associated with a dog-child

60
00:07:58,240 --> 00:08:04,520
relationship. For example, other studies have found dogs are more likely to bite children

61
00:08:04,520 --> 00:08:15,220
versus adults. We still have a lot to learn about the dog-child relationship, who

62
00:08:15,220 --> 00:08:17,820
very capable of training dogs.

63
00:08:45,860 --> 00:08:52,460
Question 23 What does a growing body of evidence show according to the passage?

64
00:09:06,820 --> 00:09:12,460
Question 24. What did Monique Udel say their study suggests?

65
00:09:27,280 --> 00:09:33,460
Question 25. What does research show kids are very capable of doing?

66
00:09:48,420 --> 00:09:50,680
That's the end of listening comprehension.
